Real industry experience. Guaranteed.

At Swinburne, we guarantee you'll get real industry experience while you're studying. In fact, we've been providing this to our students since 1963. This is how we make sure that you'll become the next generation talent our workforce needs.

Every bachelor degree we offer includes a Work Integrated Learning experience – placements, internships or industry-linked projects.

Swinburne collaborates with established organisations and companies like National Australia Bank (NAB), PricewaterhouseCoopers (PwC), Royal Melbourne Hospital, IBM – because we aim to connect you to your career faster.

"I think a placement is the perfect stepping-stone to the next phase of your career. I not only gained the experience of a professional workplace, but also developed skills and the knowledge that have made me more confident as an emerging professional."

Thishara

Bachelor of Business (Professional) graduate
Bosch Australia professional placement student

Thishara is currently Assistant Manager Digital Marketing at John Keells Properties, a premier developer of real estate in Colombo, Sri Lanka.

Find out more about Thishara's study and industry experience →

Professional Purpose program.

With this program, we'll help you connect with your passion and purpose, which can guide you to a profession that you'll love and sustain for the long term. We'll help you clarify your goals, align them to opportunities and develop a plan to make them a reality.

Work Integrated Learning opportunities

Placements

Gain full-time, paid work experience in your area of study and add it to your résumé. Placements are usually completed in the third year of your degree, so you're ready to launch into your career when you graduate. Certain degrees in some study areas, such as education, engineering, law, nursing and exercise and sports science include mandatory accreditation placements. In other study areas, you can decide whether you want your degree to include work experience. If you do, there are two ways you can accomplish this.

- **You've completed or are completing VCE Year 12, an equivalent Australian interstate qualification or the International Baccalaureate**
  If this is you, you can apply for a Professional Degree. These degrees include a 12-month work placement opportunity and are available in arts, business, computer science, engineering, health science, media and communication, and science.

- **You're not in a VCE Year 12 or equivalent program**
  There are two Professional Degrees open for direct entry for international students. They are the Bachelor of Computer Science (Professional) and the Bachelor of Information and Communication Technology (Professional).

- For all other Professional Degrees, enrol in a standard degree then transfer to a Professional Degree later to access the work placement opportunity. You will need to source your own placement and meet the prerequisite criteria of the Professional Degree program. Speak to us or your agent to make sure your chosen degree has a Professional Degree equivalent.

If you've completed or are completing VCE Year 12 but are undecided on a Professional Degree, you can also choose to enrol in a standard degree and transfer to a professional degree at a later stage.

Scan for more info about Work Integrated Learning →

Internships

Internships are part-time opportunities with established organisations that give you all-important Australian work experience. They usually take place over the course of a semester. While they're typically unpaid, they're perfect for international students. Here's why – internships are covered by your visa conditions, and don't impact your ability to work part-time while you study if it is a compulsory part of your studies. And, if you take an internship as an elective unit, your course length remains the same. It's also a great addition to your résumé and will help you stand out in your future job search.

Industry-linked projects

These projects are included in the subjects you will take during semester. As part of a group of students, you'll take on a live industry project, respond to an industry brief, solve an industry problem or get hands-on with the tools and methods used in your field of study. Together with your group members, you'll create and present a proposal or prototype to industry partners or your classmates. It's real experience that will prepare you for the workplace.

Did you know?

To successfully obtain a placement or internship, you will have to go through a selection process, just like searching for a job in real life. Don't worry, our dedicated Careers and Employability team will help plan your career and guide you in creating a résumé and cover letter. We will also help you prepare for your interview!

Adobe CREATIVE CAMPUS

Adobe Creative Campus

Australia's first Adobe Creative Campus

We want you to graduate with high digital literacy. That's why all Swinburne students have free access to the full Adobe Creative Cloud suite. That's over 20 Adobe applications. Build your portfolios, personal websites, presentations and so much more.

Malaysia

Kuching city, Sarawak state

One of Southeast Asia's most liveable cities

Business, design, engineering, IT, science. Graduate with Australian testamurs.

We've invested in technology

Swinburne is committed to providing you with world-class facilities using cutting-edge technology. Our researchers and students search for next generation answers using the best equipment and programs available.

1

Innovating the way we innovate

Factory of the Future

Here, Swinburne helps businesses and innovators (some of whom are its students!) who want to use Industry 4.0 thinking and processes to succeed. In collaboration with clients, the lab can develop new products and methods of manufacturing, as well as more productive business models. Collaborative robots, advanced simulation tools, 3D printers and high-precision scanners assist in everything from optimising manufacturing to developing new factory layouts to translating concepts into prototypes quickly.

Scan for more info

2

Simulating earthquakes for the greater good

Smart Structures Laboratory

Earthquakes are just one element that the lab tests for, in search of safer and more efficient infrastructure systems and buildings. It is the only lab of its kind in Australia, filled with A$15 million worth of equipment – it helps researchers and clients develop innovative materials with lower environmental impacts and cost as well as improved energy efficiency.

Scan for more info

3

Where the next gen of engineers and network specialists train

Cisco Networking Laboratory

Are you planning to study electrical and telecommunications engineering or networking? Then you'll be receiving industry-accredited Cisco training right here! Every workstation can set up, control and enable a wide range of real-world networking environments, from small to extra large and complex networks. It's got more than 200 routers, 200 switches and 50 firewalls and is better equipped than some internet service providers.

4

A 3D printer the size of a house

Digital Construction Laboratory

That's just one of several large-scale printers you'll find in Swinburne's A$2 million Digital Construction Lab. It's a unique facility – no other like it exists in Australia! Many of the 3D printers here print in concrete. Researchers and industry practitioners come here to test out cutting-edge methods of construction, like automation and extrusion.

Scan for more info

5

Australia's fastest brain imaging system

Swinburne Neuroimaging Laboratory

Our Neuroimaging Lab is the only human imaging facility in Australia and New Zealand to offer magnetoencephalography (MEG), magnetic resonance imaging (MRI) and electroencephalography (EEG). It's a key member of the $300 million National Imaging Facility project, where the most important brain-related questions can be explored. Researchers from across the country come here to understand human brain function and how it affects behaviour, cognitive development and mental health.

Scholarships and sponsorship

With an international scholarship, you could get up to 30% off your tuition fees.

When you apply for a Swinburne course, we'll automatically consider you for an international scholarship based on the grades of your previous study. If your application for study is successful, you will receive a letter of offer. In that same letter of offer, you will be notified if you have received an international scholarship.

You're also welcome to apply for our general scholarships. You'll find them here: **swinburne.edu.au/scholarships**

George Swinburne International Excellence Scholarship

30% off your tuition fees for the standard course duration.

This scholarship will recognise a student's high academic performance and is available to international students commencing an undergraduate course at our Hawthorn campus for the first time in 2025. If eligible, you will receive 30% off your tuition fees for the standard course duration.

Excluded courses: Bachelor of Nursing, Bachelor of Aviation and Piloting, and one-year honours degree.

Swinburne International Scholarship

20% off your tuition fees for the standard course duration.

This is a merit-based scholarship offered to international students commencing an undergraduate course for the first time at our Hawthorn campus. If eligible, you will receive 20% off your tuition fees for the standard course duration.

Excluded courses: Bachelor of Nursing, Bachelor of Aviation and Piloting, and one-year honours degrees.

Eligibility

You can confirm the eligibility criteria for each scholarship on our scholarship website: **swi.nu/gvdpq**

"Obtaining a scholarship allowed me to focus purely on my learning and experiences at university. Studying the double degree has helped me narrow down the work I'd like to do once I graduate."

Lois

Bachelor of Design (Communication Design)/ Bachelor of Business scholarship recipient

ELICOS+ Scholarship

Up to 10 weeks ELICOS tuition included in packaged programs, valued up to A$5000.

If you apply for an English Language Intensive Course for Overseas Students (ELICOS) plus an undergraduate course, you could get up to 10 weeks of your ELICOS tuition refunded.

To be eligible for this scholarship, you must not satisfy the English language requirement of your Swinburne undergraduate course. Once you have finished your ELICOS course and started your undergraduate course, a refund equal to 10 weeks of ELICOS fees – up to A$5000 – will be deducted from your tuition fees across the first three semesters of your Swinburne undergraduate course.

Melbourne's first Bachelor of Applied Innovation

Study applied innovation and harness the power of innovation to solve complex challenges of today and emerging opportunities of the future.

Swinburne teaches innovation because we want you to stand out in the job market and own skills that will never be replaced by machines. Learn critical and systems thinking, creativity and empathy – skills you can apply in every job and industry. The Bachelor of Applied Innovation* is offered as a double degree pairing† with our most popular standard degrees.

I'm interested. What do I do next?

1. Decide on your standard degree. For example, the Bachelor of Business, Design, Engineering, Computer Science or other degree.
2. Check if your standard degree is paired with the Bachelor of Applied Innovation.

   Find the list of double degrees here →
3. Apply for the double degree. It should only take you one extra year to complete units for the Bachelor of Applied Innovation.
4. Graduate with two qualifications!

What learning methods can I expect?

- Hackathons
- Innovation sprints
- Design challenges
- Industry projects

*CRICOS code 109238F

†The Bachelor of Applied Innovation is not offered as a standalone degree.

Arts, Humanities and Social Sciences

Become a next gen thinker and doer.

Study the forces that shape our world and learn how you can intervene and make positive change. From culture to history, politics and tech – you'll understand how one influences the other and our everyday lives. We don't just focus on theory. You'll learn to communicate and implement your ideas effectively. These are valuable skills that are needed in almost every industry.

The flexible design of our courses gives you many options of majors, co-majors, minors and double degrees. This means you can explore all the topics that inspire you the most.

Careers you'll be trained for include international journalism, public policy, community development and writing.

Our upgraded Bachelor of Arts

A cause that matters. A course to get you ready. A career to make an impact. Practise thinking creatively and innovatively to solve the world's social, economic and political challenges. Then, train to put your ideas into action. Every Arts student completes essential core units – in collaboration with your fellow students, you'll study Technology and Society as well as Skills and Strategies for Social Change. You'll also take part in the Work Integrated Learning 'Changemakers in Action' project and intern with a real-world organisation.

Guaranteed internship

As a Bachelor of Arts student, you're guaranteed of real industry experience through an invaluable internship. You'll apply the concepts and principles of your study area in an industry workplace setting and to better appreciate the nature of employment in industry.

Bachelor of Arts

3 years | Melbourne | March, August | A$36,280/year | 088388C | **Units** 4 8 12

Put your passion for a better world into a creative, meaningful career. In the Bachelor of Arts, you'll learn how societies evolve and humans change the world. Expect to focus on the world's most pressing problems, critical thinking, communication skills, cultural competency, digital literacy and building your confidence to make a difference.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Business, Bachelor of Engineering (Honours), Bachelor of Health Science, Bachelor of Laws, Bachelor of Psychological Sciences or Bachelor of Science (double degree duration 4 to 5 years).

Also see Bachelor of Media and Communication, page 53.

Pathway options
- Swinburne Foundation Program see page 64
- Diploma of Arts and Communication (UniLink) see page 69

Majoring in

Climate and Social Justice

Grapple with the climate crisis and growing levels of inequality within countries and across the globe. Develop a critical understanding of key concepts such as justice, rights, equality, and sustainability. Engage with essential contemporary debates over what a more just society could look like and explore ways this might be achieved.

Career opportunities
- Environmental officer
- Community advocate
- Policy analyst
- Community development officer
- Public administration.

Majoring in

Criminology and Social Change

Gain an understanding of why crimes are committed and how they affect society. Examine the motivations behind criminal activity and learn how to analyse trends, formulate policies and create systems to help prevent it.

Career opportunities
- Journalist
- Public policy analyst
- Welfare worker
- Corrections officer
- Police officer
- Community development officer.

Majoring in

Ethics and Technology

Explore the ways in which digital technologies are shaping our work, our relationships and dating practices, our health, our communications and our very selves. Examine the ethical issues around privacy and surveillance, human rights, equity and security by the use of data harvesting by private corporations and governments.

Career opportunities
- Social researcher
- Policy analyst
- Community development and aid work
- Industrial and community advocate.

Majoring in

Indigenous Studies

Explore the rich history of Indigenous cultures throughout the world with a particular focus on the Aboriginal and Torres Strait Islander peoples. Learn about fundamental Indigenous concepts, including respect and relationships, connection to country, and kinship. Investigate imperialism and colonialism, and form a deep knowledge of the issues that define Indigenous people's experiences as Australian citizens in post-colonial society.

Career opportunities
- Community engagement and/or development officer
- Public relations executive
- Policy analyst
- Cultural liaison officer
- Advocacy worker
- Client services officer.

Majoring in

Literature and Creative Writing

In this major, you'll develop an understanding of traditional and latest practice-led methods to hone your writing practice, explore how the online world has given power and voice to stories of diversity, unpack complex social issues to create persuasive writing that drives action and learn the art of crafting stories and scripts that evoke and inspire new ways of thinking about the world.

Career opportunities
- Journalist
- Publisher
- Writer
- Editor
- Public relations officer
- Novelist
- Screenwriter
- Copywriter.

Majoring in

Perspectives on Globalisation

Gain an overview of the processes that transformed international relations across the twentieth century and explore the multiple social, cultural and political trajectories unfolding across the twenty-first century. View our common future from the vantage point of diverse Indigenous and civilisational points of view, and acquire a truly global perspective on the contemporary world.

Career opportunities
- Press officer
- Policy analyst
- Government relations manager
- Stakeholder relations manager
- Government administration
- International business executive
- Corporate media executive.

Key Duration | Location | Intake | Tuition fee | CRICOS code **Unit types** ■ Core unit ■ Major unit ■ Elective unit

Bachelor of Arts majors (continued)

Majoring in

Politics, Power and Technology

Develop a deep understanding of key political concepts such as power, democracy and security. Think critically about how technology interacts with and shapes structures of power, how it influences traditional political institutions and processes; and how it impacts on rights, security and political engagement at the local, national and global levels.

Career opportunities

- Social researcher
- Policy analyst
- Community development and aid work
- Political campaigner
- Industrial and community advocate.

Majoring in

Screen Studies and Popular Culture

In this innovative, industry-orientated major, you'll explore the many ways entertainment and technology interact. You'll chart the history of entertainment technologies such as cinema, television, and videogames to anticipate future developments. You'll understand how the black mirrors that we keep in our pockets, our offices, and our homes not only reflect society, but also shape it.

Career opportunities

- Broadcast presenter
- Film researcher
- Production coordinator
- Community arts worker
- Film distribution coordinator
- Film festival manager
- Entertainment journalist.

Bachelor of Criminal Justice and Criminology

3 years | Melbourne | March, August | A$36,940/year | 098002K | **Units** 16 8

In the first degree of its kind in Victoria, you'll unpack the causes of crime as well as the fallout. Examine the international dimensions of criminal justice, as well as the technological advances impacting the sector, including predicting the commission of crime, detecting and stopping criminal behaviour, and implementing effective and efficient criminal sanctions.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Cyber Security, Bachelor of Laws or Bachelor of Psychological Sciences (double degree duration 4 to 5 years).

Pathway options

- Swinburne Foundation Program see page 64
- Diploma of Arts and Communication (UniLink) see page 69

Career opportunities

- Law enforcement officer
- Intelligence analyst
- Investigator
- Crime analyst
- Victim support worker
- Government policy writer
- Corrections officer

Julia

Bachelor of Arts with a major in Professional Writing and Editing
(Now offered as a Bachelor of Arts with a major in Literature and Creative Writing)

"Being taught by active, passionate, dedicated and successful writers has been inspirational. Not only do they show me my career possibilities, but they also give realistic and encouraging advice on how to succeed in the industry."

Aviation

Join the global flight industry.

Study our Bachelor of Aviation and Piloting, and you could be in a plane in week 3 of your degree. Don't want to be a pilot, but like the idea of managing fleets, working in airports and airline companies? Choose our Bachelor of Aviation Management.

Our graduates are ready for careers in piloting, traffic control, management, compliance, network analysis and more.

Guaranteed real industry experience

All aviation degree students work on collaborative projects to answer real industry problems faced by the industry and organisations such as Qantas and Melbourne Airport. In addition, you'll have the opportunity to apply for placements or internships related to your field of study.

Qantas Future Pilot Program

We have partnered with Qantas to offer a pilot pathway program that qualifies Swinburne's flight crew of the future to fly with QantasLink, the airline's regional brand.

Bachelor of Aviation and Piloting

3 years | Melbourne | March, August | A$221,610 or A$237,910 (total) | 093354D | **Units** 12 8 4

Become equipped for a professional career as a pilot.

Learn about the structure and operation of the aviation industry; undertake flying training at CAE Melbourne Flight Training; develop practical capabilities in management and analysis.

This course is designed to take graduates beyond the requirements for the Civil Aviation Safety Authority Air Transport Pilot Licence theory examination, and Commercial Pilot Licence and Multi-engine Aeroplane Instrument Endorsement practical tests. Elect to complete additional flying qualifications such as a Flight Instructor Rating or Part 61 approved Multi-crew Cooperation Course.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Prerequisites

- General Mathematics
- A Skills Assessment Test is also required by CAE Melbourne Flight Training.

Pathways options

- Diploma of Engineering (UniLink) see page 69

Career opportunities

- Professional pilot.

Bachelor of Aviation Management

3 years | Melbourne | March, August | A$46,590/year | 093355C | **Units** 8 8 8

Launch your aviation career in Australia or beyond – without being a pilot. Develop all the organisational, regulatory, safety, technical and business management skills you need – from how planes operate, to socially responsible practices, to how logistical partnerships work.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation or Bachelor of Business (double degree duration 4 years).

Pathway options

- Swinburne Foundation Program see page 64
- Diploma of Business (UniLink) see page 69

Career opportunities

- Aviation consultant
- Aviation regulatory and safety services manager
- Airline ground operations manager
- Airport manager
- Airline operations manager.

Majoring in

Aviation Operations

Develop a comprehensive understanding of airport and airline management, aviation data analytics and regulatory frameworks, as well as in-demand skills in network planning, disruption management and strategic decision-making.

Career opportunities

- Aviation consultant
- Airport manager
- Airline operations manager
- Aviation regulatory and safety services manager
- Airline ground operations manager.

Majoring in

Uncrewed Aircraft Systems

Gain a remote pilot licence and develop specialist skills and knowledge in Uncrewed Aircraft Vehicle (UAV) design, aerodynamics, navigation and data analysis. Graduate with a comprehensive understanding of Advanced Air Mobility, equipped for a wide range of roles in UAS, from airspace integration to aerial cinematography.

Career opportunities

- Aviation regulatory analyst
- Airspace integration specialist
- Aerial surveyor
- Aerial cinematographer
- Remote pilot (drone operator)
- Uncrewed Aircraft Systems (UAS) technician.

Built Environment and Architecture

Design innovative spaces to suit our changing world.

From interiors to buildings and bridges to cities, we need to create sustainable spaces that can work with the climate, environment and community surrounding them. At Swinburne, you'll learn to do exactly that. Through cutting-edge technology, exposure to industry and hands-on doing, you'll become our next gen architect, designer, engineer or architectural engineer.

Guaranteed real industry experience

Depending on your degree, you may collaborate with industry specialists in several classes, or, work on industry projects where you'll develop design and management skills. On top of that, you'll have the opportunity to apply for a placement or internship.

Organisations that have hosted our students

- Cox Architecture
- Memko Pty Ltd
- Carr Architecture and Design
- Billard Leece Partnership
- Architectus.

Explore the ProtoLab

- 3D architectural modeller
- Structural drafter
- Architectural consultant or designer.

Bachelor of Design (Interior Architecture) (Honours)

4 years | Melbourne | March, August | A$45,010/year | 085306A | **Units** 16 | 8 | 8

Learn about the environments in which we spend our lives and how they are formed and fabricated.

Apply conceptual processes, creative tools, management strategies and research skills to designing a variety of public and private interior/spatial projects.

Learn to capitalise on new technologies and materials in the construction of indoor and outdoor 3D spaces.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Prerequisites
- Art, Design or Media (any)

Pathway options
- Swinburne Foundation Program see page 64
- Diploma of Design (UniLink) see page 69

Career opportunities
- Interior designer
- Exhibition designer
- Property designer
- Retail designer
- Design consultant.

"So many opportunities presented themselves to me throughout the course. I was offered an internship, flew to New Zealand to design and construct a project for a festival, worked with a client to develop a prototype for an acoustically designed meeting room, and travelled to India for the Sustainable Architecture study tour. My digital design capabilities improved vastly. I gained real-world experience and built my connections with Industry. Now I'm ready for my career."

Amy

Bachelor of Design (Architecture)

Business

Whether you want to lead a multi-million-dollar corporation or build your own from scratch, we'll teach you how.

Our courses cover all aspects of business, financial and management industries. That means you'll learn skills and practices that will set you up for success in any enterprise, anywhere in the world. Our graduates have gone on to work for companies like Deloitte, PwC, Telstra, National Australia Bank, ANZ Bank and IBM.

Guaranteed real industry experience

If you're studying a bachelor degree, you'll build up your résumé with our Work Integrated Learning program, guaranteed. This could include working as part of a multidisciplinary team to solve a real business problem, answering an industry partner's brief, taking up an internship or even a placement.

Professional recognition

We are recognised by leading industry organisations. You may be eligible for membership in organisations relevant to your major.

AACSB ACCREDITED · CHARTERED ACCOUNTANTS™ · CPA AUSTRALIA · acs · AHRI Accredited Course 2021 – 2023 · PRME an initiative of the United Nations Global Compact · CFA Institute University Affiliation Program

Alex

Bachelor of Business with a major in Finance

"In one of my units, my project team was tasked with analysing Qantas airline's financial data and asked to consider how they handled the pandemic, how big their debt was, whether they were making a profit or loss and their overall financial position. We then had to put our findings in a report and provide a recommendation as to whether Australians should invest in the company or not.

Apart from learning so much about portfolio management, I now appreciate the importance of soft skills in professional settings – as a team, we had to give each other feedback in a positive way, understand each person's differing priorities and align everyone's schedules."

Find out more about Alex's study and industry experience →

Bachelor of Accounting

3 years | Melbourne | March, August | A$43,430/year | 088381K | **Units** 8 8 8

Develop skills that are fundamental to evaluating, analysing and communicating the financial position of an organisation or individual.

Majoring in

Accounting

Develop skills that are fundamental to evaluating, analysing and communicating the financial position of an organisation or individual.

Professional accreditation

This degree is professionally accredited by CPA Australia, and Chartered Accountants Australia and New Zealand.

Career opportunities
- Accountant
- Business manager
- Project manager
- Administrator
- Risk analyst

Majoring in

Business Administration

Gain an understanding of organisational management, strategies and principles. Develop practical, theoretical and conceptual skills, and an understanding about how businesses operate.

Career opportunities
- Business administrator
- Business manager
- Human resource officer
- Marketing coordinator
- Project officer.

Majoring in

Business Analytics and Analysis

Learn about business analysis and problem-solving, systems analysis, project management, the provision of IS services, social networking in organisations, and mobile business and connectivity.

Career opportunities
- Business IT manager
- Business analyst
- Information architect
- IT consultant
- Systems analyst and tester.

Majoring in

Entrepreneurship

Differentiate a business idea from a tangible business opportunity and use innovation theory and techniques to maximise that opportunity. Develop strategic thinking and planning skills, explore business models, interpret sales and marketing opportunities, build an effective team and source capital funding.

Career opportunities
- Business owner
- Entrepreneur
- Venture capital analyst
- Change manager
- Product developer
- Market researcher
- Product manager.

Majoring in

Finance

Learn how to analyse and assess financial forecasts and the value of companies, to manage risk, to investigate investment opportunities, and to examine the values of shares and bonds.

Professional recognition

This major is recognised by the CFA Institute Affiliated University Program.

Career opportunities
- Investment manager
- Financial forecaster
- Business manager
- Project officer
- Administrator
- Risk analyst.

Majoring in

Human Resource Management

Learn about the impact of human resource management as the driver of innovation and high performance in the workplace. Gain the skills and knowledge to manage and coordinate people to achieve strategic business objectives.

Professional accreditation

This major is professionally accredited by the Australian Human Resources Institute.

Career opportunities
- HR adviser
- HR consultant
- HR manager
- Organisational change coordinator.

Majoring in

Logistics and Supply Chain Management

Learn the skills required to manage the supply chain for an organisation. Gain project management skills, learn how to deal with external partners and develop skills in sourcing materials and negotiating prices.

Career opportunities
- Supply chain manager
- Export control officer
- Logistics manager
- Imports coordinator
- Fleet manager
- Warehouse operations manager.

Majoring in

Management

Learn about the role of management in business and discover how key resources must be planned, monitored and controlled to meet strategic business objectives. Develop the skills to manage yourself, to organise and lead others, to make creative and well-informed decisions, and to evaluate current situations.

Career opportunities
- Project manager
- Business manager
- Change manager
- Administrator
- Customer service manager
- Planning manager.

Majoring in

Marketing

Develop the advanced marketing and managerial skills needed to succeed in the industry. Learn about buyer behaviour, innovation and design, planning, branding, channel design, integrated marketing communication and market research.

Career opportunities

- Marketing specialist
- Market research manager
- Advertising consultant
- Brand manager
- Product manager.

Majoring in

Sports Management

Develop management skills for work in the dynamic sport and leisure industry. Learn how to manage community relationships and contribute to the sustainability of an organisation.

Career opportunities

- Sports administrator
- Corporate sponsorship director
- Brand manager.

Bachelor of Business Analytics

3 years | Melbourne | March, August | A$43,430/year | 118264G | **Units** 8 8 8

Learn to harness data with Swinburne's Bachelor of Business Analytics. Gain insight into the AI and technology currently transforming industries, develop an understanding of data-driven business principles, and build professional skills and networks through strong industry connections. Graduate with the hands-on experience you need for an in-demand career.

Note: Course fees are subject to change.

Pathway options

- Swinburne Foundation Program
- see page 64
- • Diploma of Business (UniLink) see page 69

Majoring in

Business Analysis

Develop the skills to analyse the requirements of users and learn how to transform business through technology. Discover approaches to analysing economic, social and environmental challenges and developing creative solutions that enable success.

Career opportunities

- Business analyst
- Process consultant
- Requirements analyst
- Systems analyst
- Systems architect
- Technical business analyst
- UX analyst.

Majoring in

Cyber Security Management Major

Identify, assess and mitigate security threats. Master risk management, establish robust security frameworks and protect sensitive information. Become the digital defender every business needs.

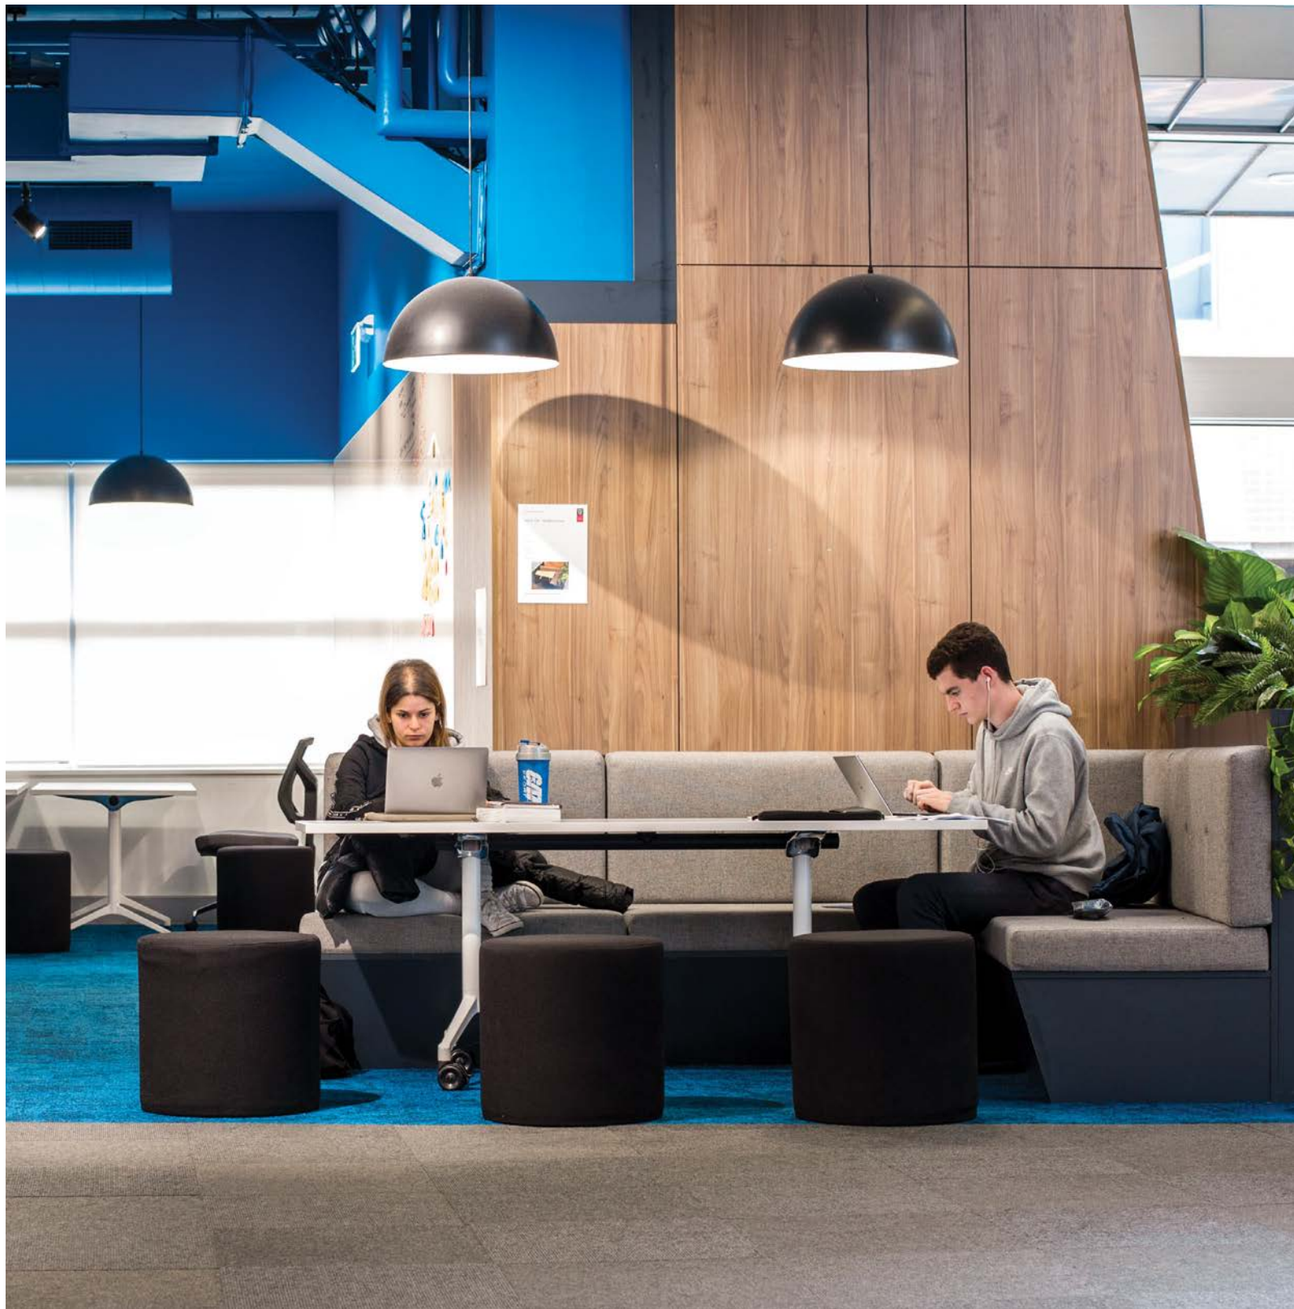

Career opportunities

- Business analyst
- Business intelligence specialist
- Cyber security analyst
- Data analyst
- Project manager
- Solution architect.

Key Duration | Location | Alternate locations (see below) | Intake | Tuition fee | CRICOS code **Unit types** Core unit | Major unit | Elective unit

Settle in for study

Cosy corners designed for solo studying or group discussion can be found all over campus, not least in the AGSE building, home of the business school.

Design

Everything we interact with was created by a designer. Want to influence the future? Here's how.

Learn in our next gen Advanced Manufacturing and Design Centre. Benefit from outstanding industry partnerships and exceptional real industry experience through the Design Factory Melbourne (part of the global Design Factory network) as well as the Innovation Precinct.

Start and accelerate your career in advertising, animation, industrial design, website and app design, furniture design and much more.

Guaranteed real industry experience

In your final Capstone Project as a Bachelor of Design student, you'll team up with other students to work on an industry-related project which complements your major. Should you want to, you could also apply for a placement or internship related to your study.

Professional recognition

Our courses are recognised by leading industry organisations. As a Swinburne student, you'll enjoy the benefits of recognition and membership.

- Australian Graphic Design Association (AGDA)
- Design Institute of Australia

Organisations our students have engaged with

- Clemenger BBDO
- Museums Victoria
- The Thrills
- Thinkerbell
- Sakimoto Pty Ltd
- Satelight Design
- Diadem.

Advanced Manufacturing and Design Centre

Imagination becomes reality at our A$100 million Advanced Manufacturing and Design Centre. Researchers, students and clients come together to test ideas and create prototypes using the latest manufacturing and design techniques and technologies.

Design Factory

Design Factory Melbourne encourages a culture of innovation and collaboration – students, research leaders, industry partners and entrepreneurs come here to solve complex problems, generate solutions and forecast the future. From experimenting with concepts and their value to the early stages of a product, DFM offers programs and support to suit.

Erina

Bachelor of Design (Communication Design) (Honours)

"I feel that Swinburne has given me real industry experience. Many of my assignments require me to go through the process of receiving briefs, working on solutions, making presentations and receiving feedback, just like in industry. In my classes so far, I've learnt to build websites – apart from designing them, I've learnt to code and use Adobe Dreamweaver. My project team is currently working on a design strategy campaign for T2, the tea brand.

I'm also a Swinburne International Excellence Scholarship recipient, which means my family doesn't have to shoulder the burden of paying my fees in full."

Find out more about Erina's study and industry experience →

Adobe Creative Campus

Australia's first Adobe Creative Campus

We want you to graduate with high digital literacy. That's why all Swinburne students have free access to the full Adobe Creative Cloud suite. That's over 20 Adobe applications. Build your portfolios, personal websites, presentations and so much more.

Bachelor of Design

3 years | Melbourne | S | March, August | A$42,890/year | 088395D | **Units** 8 8 8

Complete core units in your first year that introduce different design fields and to assist in selecting a major.

Choose from studies in branded environments, communication design, motion design, photomedia, and UX interaction design.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Business or Bachelor of Media and Communication (double degree duration 4 years).

Prerequisites swinburne.edu.au/course/undergraduate/bachelor-of-design/

Also see Bachelor of Design (Architecture) and Bachelor of Design (Interior Architecture) (Honours) page 21.

Pathway options
- Swinburne Foundation Program see page 64
- Diploma of Design (UniLink) see page 69

Career opportunities
- See the design majors below.

Majoring in

Branded Environments

This multidisciplinary course integrates communication design, interior architecture and environmental and experience design principles. You'll take a brand's identity beyond the visual and translate it into three dimensions. Learn how to think conceptually and communicate visually in our collaborative studios. Explore contemporary retail design and branding design problems.

Career opportunities
- Exhibition designer
- Visual merchandiser
- Interior designer
- Set designer
- Communications designer
- Communications researcher.

Majoring in

Communication Design

Develop your design thinking and practice in order to prepare you to thrive in today's fast-paced digital environment. Learn core specialisms such as typography, image-making, brand and identity, 3D form packaging, information design, web design and publication design. Combine them with strategy, concept development and design to create razor-sharp ideas that cut through the competition

Career opportunities
- Communications designer
- Web designer
- UX designer
- Interaction designer
- Experience designer
- Design consultant.

Majoring in

Motion Design

Design and motion come together in the future of visual communication. Mixing graphics, type, animation, video, photography and sound, you'll become a creative communicator for the whole range of digital platforms.

Career opportunities
- Motion designer
- Digital designer
- Animator
- Video producer
- Design consultant.

Majoring in

Photomedia

Get set to turn your concepts into arresting campaigns, publications and digital products. Through photography lessons and workshops on experimental image processing, you'll gain a rich, foundational knowledge of how lighting, art direction, commercial studio practice and cutting-edge technological processes produce truly memorable images.

Career opportunities
- Photographer
- Video and motion graphics specialist
- Advertising consultant
- Design consultant.

Majoring in

UX Interaction Design

Create a complete user experience from beginning to end. Take on a holistic approach in UX design, from research to storyboarding to prototyping. Develop a working knowledge and literacy in web design, experience design, interaction design, games development, AR and VR applications. Your knowledge in both CSS and HTML will give you a head start in your UX career.

Career opportunities
- User experience designer
- Customer experience designer
- Web and interactive designer
- Design consultant.

Bachelor of Design (Communication Design) (Honours)

4 years | Melbourne | March | A$42,890/year | 079130D | **Units** 20 8 4

Develop your design thinking and practice in order to prepare you to thrive in today's fast-paced digital environment.

Learn core specialisms such as typography, image-making, brand and identity, 3D form packaging, information design, web design and publication design. Combine them with strategy, concept development and design to create razor-sharp ideas that cut through the competition.

Graduates may work within the field of education in non-teaching roles such as those dedicated to policy, administration or management. Potential employment settings include government, local councils, community programs, galleries and museums, educational agencies, corporate and non-profit groups.

Key Duration | Location | Intake | Tuition fee | CRICOS code | **Unit types** Core unit | Major unit | Elective unit | Prof Placement

Engineering

If you love solving complex problems, using logic and building things, this could be your career.

All engineering students start with a common first year, so you have a chance to explore your interests before deciding on a major. Choose from architectural, biomedical, civil, electrical and electronic, mechanical, product design, robotics and mechatronics or software engineering.

You could work in the building and construction sectors, or in software, transport, industrial design, energy and civil infrastructure industries.

Guaranteed industry experience

In the Bachelor of Engineering (Honours) you'll develop technical and management skills across 8 industry-linked projects, each building on the previous one. You also have the option of applying for further placements or internships.

Professional recognition

Our engineering degrees are professionally accredited by Engineers Australia. Graduates are also eligible to register with the Board of Engineers Malaysia (BEM).

Wendy

Civil Engineer, Taylor Thomson Whitting
Bachelor of Engineering (Honours) graduate

"Swinburne helped me find real industry experience through a professional placement with Bass Coast Shire Council. My position was titled Student Engineer and the organisation treated my contributions seriously. I was given considerable responsibilities and roles on projects – I was happy that I could learn so much so quickly. I continued on with the organisation until I graduated from Swinburne. At that point, they offered me the title of Design Engineer. Of course I said yes!

I feel lucky that the professional placement led to extended employment – how many engineering graduates can say they left university with over 2 years of industry experience?"

Find out more about Wendy's study and industry experience →

Bachelor of Construction Management (Honours)

3 years | Melbourne | March, August | A$42,140/year* | 118324M | **Units** 10 8 4

In an Australian first, we've partnered with global tech company Trimble, to provide you with industry-standard, state-of-the-art hardware and software technology that you'll use in this course to prepare you for a career in construction management with high-level skills.

You'll learn to identify and use various digital technologies and sophisticated techniques including modelling and simulations for a range of construction management aspects such as time, cost, quality, productivity, safety and sustainability.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Note: Course fees are subject to change.

Career opportunities
- Digital construction manager
- Building Information Modelling (BIM) specialist
- Project manager
- Quality and safety manager
- Construction site supervisor
- Procurement manager.

Bachelor of Engineering (Honours)

4 years | Melbourne | S | March, August | A$47,320/year | 107337H | **Units** 12 16 4

Complete core units in your first year that introduce different engineering fields and to assist in selecting a major.

Apply your learning in a professionally focused, multidisciplinary project during your final year of study. Undertake at least 12 weeks of professional experience.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent

Combine this degree with Bachelor of Applied Innovation, Bachelor of Arts, Bachelor of Business, Bachelor of Computer Science, Bachelor of Laws or Bachelor of Science (double degree duration 5 to 6.5 years).

Professional accreditation Our engineering degrees are professionally accredited by Engineers Australia.

Prerequisites
- General Mathematics

Majoring in

Architectural

Combine innovative design principles with an engineering approach to architecture. Gain the technical expertise and management skills needed to plan, design and build spaces that people want to live and work in. Apply best practices in sustainability, health and wellbeing, and SMART technology to architecture.

Career opportunities
- Design engineer
- Structural systems engineer
- Architectural engineer
- Project engineer.

Majoring in

Biomedical

Learn about the application of electrical, electronics and systems engineering in medicine and biology. Learn how to develop and use new technologies such as medical instrumentation and prosthetic devices that can be used to advance and improve health care and quality of life.

Career opportunities
- Biomedical engineer
- Clinical engineer
- Medical device designer
- Medical electronics engineer.

Majoring in

Civil

Gain technical expertise and management skills needed to plan, design, construct and maintain infrastructure such as buildings, bridges, dams, water supply systems, waste treatment systems, road and rail networks, airports and seaports.

Career opportunities
- Civil engineer
- Civil design engineer
- Structural engineer
- Environmental engineer.

Majoring in

Electrical and Electronic

Gain technical expertise in power system design, electronics, control systems, signal processing and embedded systems. Learn how to apply skills and knowledge in the design, construction, operation and maintenance of electronics and electrical energy infrastructure.

Career opportunities
- Electrical engineer
- Electronics engineer
- Communications engineer
- Power engineer
- Design engineer.

Majoring in

Mechanical

Learn the core concepts of mechanics, kinematics, thermodynamics, fluid mechanics and energy. Go beyond the classroom and participate in industry projects and practical workshops.

Career opportunities
- Mechanical engineer
- Mechanical project engineer
- Design engineer
- Project and technology manager
- Engineering project manager.

Majoring in

Product Design

This course combines studies in industrial design and engineering, linking the creativity and human-centred approach of industrial design with the academic rigour of engineering science, material and manufacturing process selection, project management and innovation.

Career opportunities
- Industrial designer
- Industrial engineer
- Product designer
- Product design engineer
- Entrepreneur
- Design consultant.

Majoring in

Robotics and Mechatronics

This course integrates three traditional engineering disciplines – mechanical, electronics and software. Complete units in computer-aided engineering, control systems, electronics, machine dynamics and design, mechatronics systems design and development, programming, project management and structural mechanics.

Career opportunities
- Robotics and mechatronics engineer
- Control systems engineer
- Factory automation adviser
- Robotics developer.

Majoring in

Software

Learn advanced software engineering with an emphasis on teamwork, problem-solving and practical software engineering skills, including quality assurance, project management and industry-standard development techniques and tools.

Career opportunities
- Software engineer
- Software systems developer
- Software modeller
- Project and technology manager.

Key Duration | Location | Intake | Tuition fee | CRICOS code | **Unit types** Core unit | Major unit | Elective unit

Film and Television

Make movies, series and content to entertain, educate and inspire.

With new technology and streaming services, our relationship to the cinema, TV and our mobile screens has changed. Learn the creative and practical skills you need to succeed, whether it's in directing, producing, screenwriting or creating special effects.

Our students and graduates have shown and won at multiple local and international festivals.

Guaranteed industry experience

If you're a degree student, you'll either produce a film or develop a screen-based media project. You'll also have the chance to apply for a placement or internship related to your area of study.

Professional recognition

Depending on your major, you may be eligible for membership in the following organisations:

- Australian Cinematographers Society
- Australian Directors Guild
- Australian Screen Editors Guild
- Australian Writers Guild
- Screen Producers Association of Australia.

Organisations that have hosted our students

- SunJive Studios
- MINA (Mobile Innovation Network and Association)
- WTFN Entertainment.

Bachelor of Film and Television (Honours)

4 years | Melbourne | March | A$45,510/year | 092513B | **Units** 8 16 8

Gain the essential creative skills, technical knowledge and theory to make high-quality cinema, television and digital media productions.

Collaborate to make films through research, screenwriting, direction, project management and production skills such as cinematography, sound editing and visual effects.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Also see Bachelor of Animation page 41, and Bachelor of Design with a major in Motion Design page 30.

Career opportunities

- Screenwriter
- Director
- Cinematographer
- Editor
- Producer
- Post production manager.

Bachelor of Screen Production

3 years | Melbourne | March, August | A$44,840/year | 105727K | **Units** 8 8 8

Gain an understanding of how technological shifts are driving changes across a broad range of established and emerging media industries.

Learn the digital literacy and media production skills required for multiple broadcast platforms including smartphones, networked environments and social media applications.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation (double degree duration 4 years).

Pathway options

- Swinburne Foundation Program see page 64

Career opportunities

- Digital media producer
- Digital sound production
- Social media specialist
- Digital project manager
- Digital media consultant.

Shortlisted for an Oscar

An Oscar-shortlisted short film was an impossible dream when they started a Bachelor of Film and Television at Swinburne. But for Andrew Goldsmith and Bradley Slabe, along with fellow alumni Rennie Watson and Dave Abbott, it became a very exciting reality when their seven-minute animated stop-motion film, *Lost & Found*, was shortlisted for the 2019 Academy Awards. It took the team three years of story development,14 months of shooting and almost 6,000 hours of work to bring the film to life, and it all began at Swinburne.

"Swinburne had a reputation for being a top film course that was both theoretical and hands-on, which appealed a lot to me," says co-director Andrew. "Another valuable part of the course was forming relationships with people who are the future of the industry."

Andrew Goldsmith and Bradley Slabe, Rennie Watson, Dave Abbott

Film and Television (Andrew and Bradley), Design (Rennie), and Multimedia and Media Studies (Dave).

Games and Animation

Create games or join the gamification revolution.

We don't just make games for fun. Gamifying any experience is a great way to help people remember information and feel engaged. From education to consumer products, every industry now uses some form of gaming to connect with customers and employees. And all games need animators. So let's get your career started, now.

Guaranteed industry experience

Based on which degree you choose, you'll team up with your fellow students to create and showcase a game or pitch, develop and produce an animated project for exhibition. You'll also have the opportunity to apply for a placement or internship that complements your area of interest.

Professional recognition

Depending on your major, you may be eligible for membership in the following organisations:

- Australian Interactive Media Industry Association
- Games Developers' Association of Australia
- Computer science (majoring in games development) degrees are accredited by the Australian Computer Society (ACS).

Organisations that have hosted our students

- EA Firemonkeys
- Robot Circus
- BES Animation
- Studio 21-19
- Chimney Group.

Best student game in the world

It's a pretty handy credit to add to your LinkedIn profile. And it's one that a group of Swinburne students claimed at LA's prestigious The Game Awards in 2017. Their entry, a 2D puzzle platformer game called *Level Squared* (or *LVL*^{2}), won the inaugural Student Game Award, beating out entries from all over the world. Not bad for a first effort.

In accepting the award, design lead and student Stephen said Swinburne is "the best place in Australia to learn how to make games". The entire team, known as Glitch Crab Studios, said that having access to The Arcade and the mentorship of Swinburne's teachers were crucial to their success.

Health

Explore the many healthcare professions that positively impact people's lives.

Counselling, nutrition, exercise and sport science, psychology and more – these are just some of the areas in which to build a fulfilling career. We'll teach you specialised skills and show you how to apply them in brand new facilities furnished with the latest technology. Then, you'll get plenty of practice through clinical placements.

Guaranteed industry experience

As a degree student, a very important portion of your studies will be an industry-linked project to address a current industry challenge. You'll also have the chance to apply for a placement or internship, so you can start building your professional network before you graduate.

Professional recognition

All three-year undergraduate majors in psychology are professionally accredited by the Australian Psychology Accreditation Council.

Organisations that have hosted our students

- Monash Health
- St Vincent's Hospital
- Peter MacCallum Cancer Centre
- The Alfred
- Royal Melbourne Hospital
- The Royal Children's Hospital
- Austin Health
- GSK (GlaxoSmithKline).

Human-sized iPads?

Forget just staring at textbooks – when you study health at Swinburne, you'll also be learning using the latest technology and equipment in our brand-new, state-of-the-art facilities. Like our Anatomy Lab. Learn about the human body using large interactive screens (think human-sized iPads), which allow you to expand your knowledge and understanding in an interactive way.

Bachelor of Biomedical Science

3 years | Melbourne | March | A$40,520/year | 116519E | **Units** 8 8 8

The world needs highly skilled biomedical graduates and Swinburne's new tech-focussed Bachelor of Biomedical Science is the ideal entry into this vital healthcare domain.

Learn in an engaging and immersive environment using state-of-the-art technology and facilities, including virtual reality and digital dissection.

You'll get the chance to take up real industry experience with leading organisations like Peter MacCallum Cancer Centre, and the Royal Children's Hospital.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Pathway options
- Diploma of Health Science (UniLink) see page 69

Career opportunities
- Biomedical technician
- Medical scientist
- Health information officer
- Clinical trials coordinator
- Microbiology technical officer.

Bachelor of Exercise and Sport Science

3 years | Melbourne | March | A$43,430/year | 097922M | **Units** 20 4

Improve the health, fitness and performance of individuals and teams through training, coaching and advice.

Learn how to navigate the increasingly digitised exercise and sport industry through access to cutting-edge laboratories and technology, including wearable sensors, virtual reality and 3D analysis equipment. Gain real-world experience through industry-based entrepreneurial and research projects.

Prerequisites
- General Mathematics

Pathway options
- Diploma of Health Science (UniLink) see page 69

Career opportunities
- Sports scientist
- Performance analyst
- Coaching/development officer
- Strength and conditioning specialist
- Cardiac technician.

Bachelor of Health Science

3 years | Melbourne | March, August | A$40,520/year | 077669G | **Units** 8 8 8

Explore Australian and international health challenges from a range of perspectives. Examine the physical, and social aspects of health in a variety of settings. Choose from a wide range of major study areas.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Arts, Bachelor of Business, Bachelor of Media and Communication or Bachelor of Science (double degree duration 4–5 years).

Also see Bachelor of Nursing page 55.

Majoring in

AI and Digital Health

diagnostics, image analysis, patient monitoring, personalised healthcare, as well as drug discovery. The major prepares you to drive innovation in modern healthcare environments..

Career opportunities
- AI Health solution consultant
- Digital health analyst
- Digital health program coordinator
- Clinical informaticist
- Health data scientist
- Health innovation program developer.

Majoring in

Biomedical Science

Explore biology, medicine, disease, chemistry and physiology to form a comprehensive understanding of the health of humans. You will learn skills to investigate and understand human biology, and gain the ability to critically analyse and interpret biomedical and scientific data.

Career opportunities
- Biomedical technician
- Hospital scientist
- Biotechnology product developer
- Clinical trials coordinator
- Medical laboratory scientist
- Microbiology technical officer.

Majoring in

Clinical Technologies

Learn about anatomy and physiology using cutting-edge MedTech. Learn to use point-of-care, industry-standard devices to medically monitor cardiopulmonary, renal and neurophysiology systems. Develop knowledge about the technology and modern instrumentation used in clinical care and monitoring environments such as analytical and research laboratories.

Career opportunities
- Hospital scientist
- Cardiac technologist
- Clinical neurophysiologist
- Respiratory technologist
- Sleep technologist.

Majoring in

Neuroscience

You'll learn to interpret data generated by MRI and MEG machines to identify healthy brains, brain disorders and diseases of the central nervous system. Discover cutting-edge technologies for measuring nervous system function as well as contemporary research in neurobiology.

Career opportunities
- Neuroscientist
- Pharmaceutical representative
- Medical device technician
- Hospital scientist
- Clinical neurophysiology technologist
- Clinical trials manager
- Sleep technician.

Majoring in

Nutrition

Gain an understanding of food sources, metabolic functions of carbohydrates, proteins, vitamins and minerals along with the biological, psychological, cultural and social determinants of food choices in order to understand the role of nutrition in health across the lifespan.

Career opportunities
- Nutritionist
- Nutrition analyst
- Nutrition teacher
- Nutrition researcher
- Public health worker
- Health program developer
- Digital content developer.

Majoring in

Public Health and Health Promotion

Health promotion is essential for addressing contemporary health, social, and environmental challenges and enabling people to take control over their lives. Gain skills and knowledge in health science, statistics, cultural studies, communication and leadership.

Career opportunities
- Community developer
- Health education and promotion officer
- Policy developer
- Government officer
- Community officer
- Project officer.

Key Duration | Location | Intake | Tuition fee | CRICOS code **Unit types** Core unit | Major unit | Elective unit

Bachelor of Nutrition

3 years | Melbourne | March, August | A$40,520/year | 116518F | **Units** 8 8 8

Become a leader in the ever-expanding nutrition industry with a career-focussed, technology led education. You'll study progressive food trends, sustainable nutrition and food's impact on health and wellbeing in a lab-based environment.

Graduates will be eligible to apply for membership of the Nutrition Society of Australia.

Pathway options
- Diploma of Health Science (UniLink) see page 69

Career opportunities
- Nutritionist
- Food technologist
- Health promotion officer
- Quality assurance officer
- Nutrition adviser.

Information Technology

As a tech expert, you'll lead the world.

We'll give you the knowledge and skills to excel wherever the application of IT is needed (everywhere!). From complex and critical industries to daily instances, you'll be equipped to problem solve, innovate and positively impact society.

Your career options are limited only by your imagination – defence, aerospace, medicine, finance, transport, manufacturing, energy, business and more.

Guaranteed industry experience

If you're a degree student, you'll complete 6 industry-linked projects – 6 chances to collaborate in a team, take briefs, develop solutions and present them for feedback, just like in the workplace. You'll have the additional opportunity of applying for a placement or internship.

Professional recognition

Our IT degrees are professionally accredited by ACS.

Organisations that have hosted our students

- Paper Cut Software
- Integrated Application Development
- Infrabuild
- Quitch
- System of the Future
- Data61
- Mendix
- Oracle

Virtual Design Lab

Swinburne's Virtual Design Lab visualises, models and tests new systems and product ideas. Right now, they're using virtual reality to evaluate above-ground fire shelters, investigating an e-plane that can take off vertically and so much more.

Thao

Bachelor of Computer Science (Professional)

"I know that practical experience is really important, which is why I chose a professional degree. I'll do three years of study (a standard degree) plus a 12-month, paid placement with an employer. I want to gain insight into the computer science industry and start making connections early. I know Swinburne has a great network of industry partners, Australian and global, so I'm confident I'll find a placement that I like. Hopefully that leads to a job when I graduate."

Find out more about Thao's study and industry experience →

Bachelor of Computer Science (Professional)

4 years | Melbourne | March, August | A$42,600/year | 095880K | **Units** 8 8 6 4

Prerequisites

- Mathematics (any)

Pathway options

- Diploma of Information Technology (UniLink) see page 69

Bachelor of Computer Science

3 years | Melbourne | P, S , V | March, August | A$42,600/year | 088400A | **Units** 8 8 8

Learn about software development, the internet of things, networking and cybersecurity while gaining a sound understanding of the traditional aspects of computer science.

Explore contemporary approaches to application development involving mobile devices languages, including C++, C#, Objective C and Java.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Professional degree This degree extends the standard degree to include a professional placement co-major comprising a 12-month work placement.

Professional accreditation This degree is professionally accredited by the Australian Computer Society.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Engineering (Honours), Bachelor of Games and Interactivity or Bachelor of Laws (double degree duration 4 to 5 years).

Majoring in

Artificial Intelligence

Learn the fundamental concepts of AI, apply advanced algorithms and data structures to solve problems, and design software that implements AI concepts.

Career opportunities

- AI engineer
- Machine learning specialist
- Data analytics specialist
- AI researcher.

Majoring in

Cyber Security

Learn the fundamentals of encryption systems, access control, the internet and get into the minds of malicious hackers and cyber-criminals. Learn their tricks and how to defeat them.

Career opportunities

- Cybersecurity consultant
- Digital forensics expert
- Information system security officer
- Cybersecurity system designer.

Majoring in

Data Science

Learn the statistical methods and tools needed to manage big datasets and the visualisation techniques needed to represent and understand that data.

Career opportunities

- Data scientist
- Data analyst
- Business analyst
- Data solutions manager
- Information systems analyst
- Market intelligence analyst.

Majoring in

Games Development

Focus on the design and programming of computer games and other interactive software. Gain skills in software development using an object-oriented approach and specialist areas in games design and development. Learn about the creative and design aspects of multimedia and internet technologies, particularly as applied to games development.

Career opportunities

- Software developer
- Video game creator
- Computer programmer
- Data solutions manager.

Majoring in

Internet of Things

Gain the core programming skills and knowledge needed to develop a variety of open-source Internet of Things (IoT) platforms, devices and software. Learn to solve problems by analysing data from internet-connected devices.

Career opportunities

- Mobile application developer
- Full-stack software developer
- Solution architect
- IT consultant
- Digital developer.

Majoring in

Software Development

Learn how to architect big systems, write phone and tablet apps and produce software that is better than industry standard. Then scale your applications up to the cloud for hacker-proof, robust and reliable software applications.

Career opportunities

- Software developer
- Software designer
- Digital developer
- IT consultant.

"I've loved every subject and have been able to get a feel for many industries, including television, audio, advertising, graphic design and marketing. Another highlight has been great support from my lecturers and tutors – I never hesitate to ask for assistance and feedback. The welcoming and inclusive social aspect at Swinburne has meant that, once I graduate, I'll have life-long friends."

Catherine

Bachelor of Media and Communication

Bachelor of Media and Communication

3 years | Melbourne | V | March, August | A$40,850/year | 088390J | **Units** 4 8 12

Learn how the media sector is evolving through an examination of issues, such as diversity, the influence of social networking data, ownership and privacy, and the digital economy.

This flexible degree will help prepare you for a career you'll be passionate about. Plus, you'll benefit from free access to – and coaching in – Adobe Creative Cloud while you're studying.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Business, Bachelor of Design, Bachelor of Health Science or Bachelor of Laws (double degree duration 4 years).

Also see Bachelor of Arts page 15.

Pathway options
- Swinburne Foundation Program see page 64
- Diploma of Arts and Communication (UniLink) see page 69

Majoring in

Advertising

Gain vital knowledge and skills needed to succeed in the complex and creative world of advertising. Learn how to design advertisements that not only please clients but achieve the ultimate purpose of reaching the audience in the desired way.

Professional accreditation

This major is professionally accredited by the Media Federation of Australia.

Career opportunities
- Marketing and sales professional
- Public relations officer
- Advertising consultant
- Media planner
- Brand strategist.

Majoring in

Cinema and Screen Studies

Explore moving-image traditions and theories. Develop screen-specific research and writing skills and become prepared for roles in media organisations and across a range of creative industries.

Career opportunities
- Broadcast presenter
- Film researcher
- Production coordinator
- Community arts worker
- Film distribution coordinator
- Film festival manager
- Entertainment journalist.

Majoring in

Creative Writing and Publishing

Gain an understanding of creative text and popular culture in literature. Develop models for your own writing and critiquing skills in literature, while exploring subjects such as self and society.

Career opportunities
- Journalist
- Publisher
- Writer
- Editor
- Novelist
- Screenwriter
- Producer
- Advertising consultant.

Majoring in

Immersive Media

Learn how to develop content for the future of entertainment, business and advertising with a major in immersive media. Engage in 360, VR (Virtual Reality), AR (Augmented Reality), and MR (Mixed Reality) interactive experiences.

Career opportunities
- Entertainment manager
- Immersive content developer
- Media analytics and sales coordinator
- Advertising and marketing specialist
- Digital Storyteller
- Immersive Specialist.

Majoring in

Journalism

Combine traditional journalistic skills with online publishing, multimedia production and the skills required for interacting with audiences, social networking and building online communities. Publish and broadcast working online, television, radio and print outlets.

Career opportunities
- Editor
- Journalist
- Radio producer
- Television presenter
- Publisher
- Social commentator.

V Also available at our partner location in Hanoi, Vietnam. See page 75 for more information.

Majoring in

Public Relations

Study theories of influence, build your understanding of the media, and learn how to manage the public perception of an organisation. Develop skills in event management, writing, project management and issues communication to help companies build lasting relationships with the people most important to their success.

Professional accreditation
This major is professionally recognised by the Public Relations Institute of Australia (PRIA).

Career opportunities
- Communications officer
- Crisis manager
- Fundraising and sponsorship coordinator
- Public relations officer
- Marketing officer.

Majoring in

Social Media

Gain a comprehensive understanding of social media platforms within social, cultural and industry contexts. Learn how to analyse new and emerging media technologies and drive their use and innovation across industry.

Career opportunities
- Digital advertising specialist
- Digital marketer
- Social media officer
- Social media producer.

Nursing

Be a 21st century nurse prepared for any challenge.

With Swinburne's strength in technology and innovation, you'll use simulation technology and realistic case studies to learn. Our small classes also mean that you'll get the individualised support and attention you need to develop into a next gen nurse.

Guaranteed industry experience

Complete 800 clinical practicum hours at leading hospitals and healthcare institutions. On top of that, you'll have the opportunity to team up with fellow students and collaborate with industry partners on a project.

Bachelor of Nursing

3 years | Melbourne | March | A$45,010/year | 097923K | **Units** 24

Undertake hands-on laboratory work and training in our new and redeveloped state-of-the-art clinical laboratories.

Complete clinical work placements in a range of health settings, including acute hospital, aged-care, day surgery or mental health environments in metropolitan or regional areas.

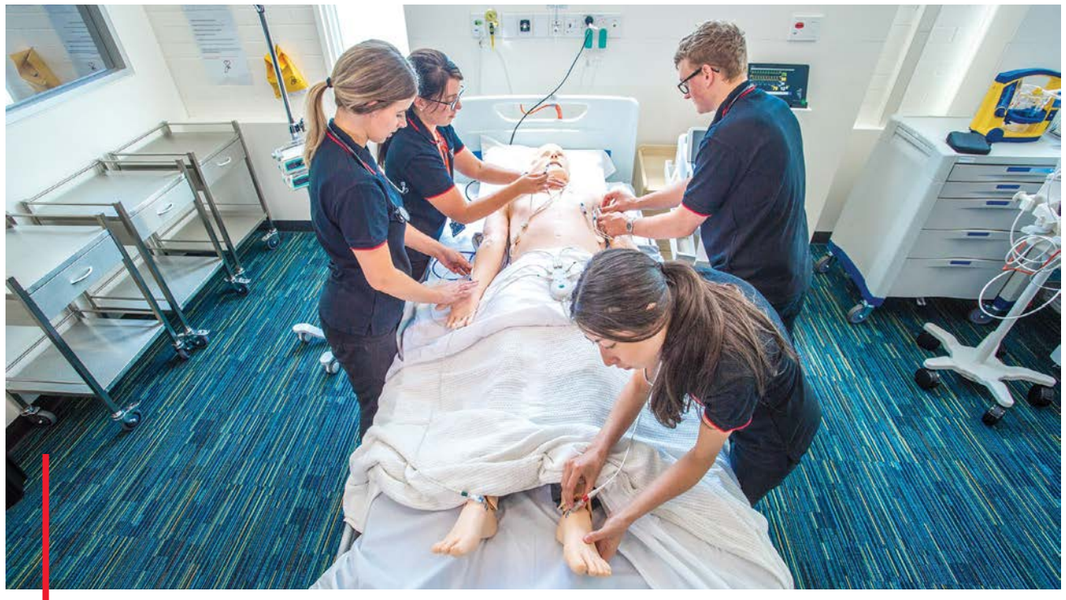

Entry requirements IELTS overall band of 7.0 (Academic Module) with no individual band below 7.0 or equivalent

Professional accreditation This degree has been accredited by the Australian Nursing and Midwifery Accreditation Council and is listed as an approved program of study on the Australian Health Practitioner Regulation Agency (AHPRA) website.

Students are required to have a valid police check and Working with Children Check. Evidence of a completed adult vaccination program is required before clinical placements are undertaken.

Career opportunities

- Registered nurse.

Cutting-edge facilities

Our new state-of-the-art nursing facilities will ensure you're getting practical training and working with the latest technology and equipment right from the start of your study. Gain hands-on experience in our purpose-built nursing labs, and put what you've learnt to the test in our Simulation Ward. Here, you'll work with high-tech mannequins that simulate various physiological symptoms in a hospital-style environment, and watch others in action from the Observation Deck. It's all designed to prepare you to feel confident in administering patient care in a range of health settings on placement and beyond.

Samantha

Bachelor of Health Science with a major in Psychology and Forensic Science

For Samantha, taking high school biology and reading true crime sparked her interest in forensics. Passionate about both psychology and biology, particularly the workings of the human brain, Samantha was disappointed to think she could only choose one area for undergraduate study.

"Most universities offer forensic science or forensic psychology only at a postgraduate level. So, when I heard about this course at Swinburne, I was thrilled!"

After graduating from her 'perfect combo' course, Samantha plans to gain industry experience before returning to Swinburne to undertake the integrated PhD program.

Bachelor of Psychological Sciences

3 years | Melbourne | March, August | A$42,220/year | 088389B | **Units** 4 8 12

Gain the knowledge and skills to understand and explain human behaviour and relationships.

Learn about abnormal psychology, cognition, developmental psychology, personality, social psychology and statistics, as well as biology, chemistry and physiology.

Entry requirements IELTS overall band of 6.5 (Academic Module) with no individual band below 6.0 or equivalent.

Professional accreditation The three-year undergraduate major in psychology is professionally accredited by the Australian Psychology Accreditation Council.

Combine this degree with Bachelor of Arts, Bachelor of Criminal Justice and Criminology (double degree duration 4 years).

Pathway options
- Swinburne Foundation Program see page 64
- Diploma of Health Science (UniLink) see page 69

Career opportunities
- Psychologist (with further study)
- Social welfare consultant
- Medical researcher
- Child safety officer
- Clinical worker
- Health officer
- Child development officer.

Bachelor of Psychology (Honours)

4 years | Melbourne | March | A$43,850/year | 088386E | **Units** 8 14 12

This degree is an integrated four-year program designed to satisfy the first step towards becoming a professional psychologist.

Gain the knowledge and skills to understand and explain human behaviour and relationships. Learn about abnormal psychology, cognition, developmental psychology, psychological assessment, personality, social psychology and statistics, as well as biology, chemistry and physiology.

Entry requirements IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0 or equivalent.

Professional accreditation The four-year undergraduate major in psychology is professionally accredited by the Australian Psychology Accreditation Council.

Career opportunities
- Psychologist (with further study)
- Social welfare consultant
- Medical researcher
- Child safety officer
- Clinical worker

Science

From global health to the climate and oceans to space, make discovery your everyday goal.

Focus on practical learning and research. Experiment in our state-of-the-art laboratories. Grow your connections with national and international researchers and industries. We'll teach you to have a scientific mindset, which is in demand by so many fields. You can even add Space Technology as a second major to your course.

Guaranteed industry experience

Science degree students will work on three industry-linked projects – one for every year of study. This includes the unit, Grand Challenges in Science, in their final semester, where you'll work with an industry, community or academic partner. You'll have the additional opportunity of applying for a placement or internship.

Professional recognition

Our science courses are recognised by leading industry organisations. The Australian Institute of Physics (AIP) has accredited the below courses and its related major and minor combinations:

- Bachelor of Science with a major in Physics and a Mathematics minor
- Any double degree with a major in Physics and a Mathematics minor.

Graduates may be eligible for membership of a number of organisations relevant to their major area of study, including:

- Double degrees may provide additional opportunities for membership of leading industry organisations.

Organisations that have hosted our students

- Boron Molecular
- Coleman Rail
- CSIRO
- CSL
- DSTG
- Exxon Mobil
- Forethought
- Steritech
- Symbio Laboratories.

Prerequisites
- General Mathematics

Pathway options
- Swinburne Foundation Program see page 64
- Diploma of Health Science (UniLink) see page 69
- Diploma of Science (UniLink) see page 69

Majoring in

Applied Mathematics

Gain a broad understanding of mathematical and numerical methods used to describe phenomena and to predict behaviours. Explore how to make sense of big data and complexity. Learn to model fundamental processes in physical and life sciences, social sciences, consumer behaviour and finance.

Career opportunities
- Actuary
- Data analyst
- Mathematical modeller
- Meteorologist and climate modeller
- Quantitative analyst
- Scientific programmer.

Majoring in

Astronomy and Astrophysics

Gain a broad understanding of mathematical and numerical methods used to describe phenomena and to predict behaviours. Explore how to make sense of big data and complexity. Learn to model fundamental processes in physical and life sciences, social sciences, consumer behaviour and finance.

Career opportunities
- Actuary
- Data analyst
- Mathematical modeller
- Meteorologist and climate modeller
- Quantitative analyst
- Scientific programmer.

Majoring in

Biochemistry

Study the molecules of life and the fundamental nature of matter in terms of molecules, reactions and properties. Examine how biochemical knowledge can be applied to a range of industries and medical investigations, focusing on skills such as culturing microorganisms and investigating complex molecules, including enzymes and DNA.

Career opportunities
- Clinical biochemist
- Diagnostic laboratory scientist
- Medical researcher
- Pathology scientist
- Research assistant
- Research and development scientist.

Majoring in

Biotechnology

Examine the fundamental sciences that underpin biotechnology – chemistry, biochemistry, microbiology and statistics – while investigating the application of biotechnology to areas such as business, ethics and environmental science.

Career opportunities
- Clinical biochemist
- Diagnostic laboratory scientist
- Forensic scientist
- Medical researcher
- Pharmaceutical scientist.

Majoring in

Chemistry

Learn far-reaching applications of chemistry, including forensic science, polymer formation, water analysis, the creation of new materials, agricultural chemistry, environmental science and analytical chemistry.

Career opportunities
- Clinical biochemist
- Diagnostic laboratory scientist
- Food/beverage production technician
- Medical researcher
- Pharmaceutical scientist.

Majoring in

Environmental science

Learn about the relationship between local, global, social and ecological issues and the responsibility of the different groups involved in sustainability. Gain scientific skills, such as chemistry, biology and microbiology, to address environmental sustainability in the future.

Career opportunities
- Environmental analyst
- Environmental sustainability scientist
- Plant and animal breeder
- Sustainability analyst
- Water quality expert.

Majoring in

Physics

Gain fundamental knowledge of classical and modern physics and the physics of nanoscience and technology, as well as hands-on experience in experimental physics. You can also undertake a co-major outside your major field of study such as space technology.

Career opportunities
- Climate modeller
- Financial analyst
- Meteorologist
- Physicist
- Statistician
- Renewable energy specialist.

Star Power

From black holes to the Big Bang, Associate Professor Alan Duffy is one of Australia's top experts on all things galaxy-related. His research into dark matter and astrophysics has led to regular appearances in the media and on television, including Australian shows like *The Project* and *News Breakfast*, to explain science in ways we can all understand. In fact, his ability to communicate complex scientific ideas and discoveries in an engaging way won him the national 2018 Celestino Eureka Prize for Promoting Understanding of Science. Recently, he added to his impressive list of awards with the Academic of the Year nod at the inaugural Australian Space Awards. He also launched Swinburne's latest endeavour, the new Space Technology and Industry Institute, in January 2021. For Alan, the sky is definitely not the limit.

Alan Duffy

Astrophysicist, Lead Scientist of the Royal Institution of Australia, Swinburne Associate Professor and Research Fellow

English language programs

ELICOS+ Scholarship

- English classes packaged together with your Swinburne course.
- Get refunded for up to 10 weeks' worth of ELICOS tuition fees in the first three semesters of your course.
- That's up to A$5000 worth of English lessons.
- This offer is exclusive to Swinburne and will help raise your English to university standard.
- Course duration is from 10 to 30 weeks, depending on your ability and goals.

Why study English at Swinburne?

- Swinburne is placed in the Top 1% of universities worldwide[1]
- We are rated 5 Stars for the quality of our educational experience[2]
- Progress directly into other Swinburne courses
- Personalised study experience and extensive student support
- Free English testing
- Maximum of 18 students per class
- Studying in Australia's no. 1 student city[3].

[1] QS World University Rankings 2025

[3] QS Best Student Cities Ranking 2024

When can I start?

Don't wait to start improving your English. We run classes every five weeks.

English for Academic Purposes (levels EAP 3 to EAP 5)

These courses are a step up from General English and will give you direct pathways into Swinburne's certificate, diploma, bachelor, master and even PhD courses. Learn communication skills for a higher level of study and how to think critically.

These classes use scientifically supported learning strategies and real-world case studies. You'll learn how to analyse and respond to a range of current media.

English language requirements for undergraduate study

Successful completion of one of the following English language requirements:

- Swinburne's EAP 5 (Advanced level) with overall 65% and all skills 65% or above
- Minimum IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0
- TOEFL (internet-based) minimum score of 64 with no band less than 13 in reading, 12 in listening, 18 in speaking, 21 in writing
- Pearson (PTE) minimum score of 50 (no communicative skills less than 50).

Note: the Bachelor of Education, Exercise and Sport Science, Law, Nursing, Psychological Sciences, Psychology (Honours), and professional degrees have higher English proficiency requirements. Refer to Course Search for more information: **swinburne.edu.au/study**

Foundation Program

Swinburne Foundation Program is a pre-university program for international students.

It is designed to help you make a smooth transition into university by developing your study and learning skills.

At Swinburne, you can be confident of receiving the highest quality teaching in a nurturing and student-focused environment.

Pathway opportunities

On successful completion of the Swinburne Foundation Program, you're guaranteed a place in your preferred degree at Swinburne as long as you meet the bachelor degree entry requirements and prerequisites.

If you don't wish to transfer directly into a bachelor program, you can keep studying in a supportive environment through one of our UniLink diploma programs, before entering the first or second year of a Swinburne bachelor degree.

Progression requirement

Students completing the Foundation Program must achieve at least 65% average overall and a 60% average in Academic and Communication Skills A and B for entry to a bachelor degree. Note that some degrees require a higher percentage average overall for entry.

Students intending on progressing to:

- an Engineering course, must complete MTH00012 Foundation Mathematics.
- a Design course, must complete at least one of DDD00002 Design Fundamentals, or GRA00004 Drawing and Illustration.

Foundation Program	Teaching Period 1 →	Teaching Period 2 →	Bachelor degree OR UniLink diploma

A supportive and friendly environment

At Swinburne, you can be confident of receiving the highest quality teaching in a nurturing and student-focused environment.

UniLink Bridging Program

The UniLink Bridging Program is your pathway to a UniLink diploma if you don't meet the entry requirements. You'll build your knowledge in business, design or engineering while you gain the confidence to communicate at a tertiary level in Australia.

Students progressing from Swinburne College to a Swinburne University degree will be eligible for the same scholarship awarded to direct-entry students.

Complete the UniLink Bridging Program if you:

- completed an Australian Year 12 or equivalent qualification but did not meet the entry requirements for a UniLink diploma
- do not have the prerequisite subjects required for business, design or engineering programs
- would like to transfer from another Australian education provider to Swinburne's UniLink diploma and don't meet the entry requirements.

Progression requirement

Students completing a UniLink Bridging Program must achieve at least 50% average overall for entry to a UniLink diploma.

swinburne.edu.au/course/degree-pathway/unilink-bridging-program-te-ubp1/?student_type=international

The excitement of Orientation Week

Find new friends, join a club, attend events and get acquainted with Swinburne's culture during your first week at university!

UniLink diplomas

UniLink diplomas are accredited, award-level higher education qualifications that provide an alternative pathway to the second year of a range of bachelor degrees offered at Swinburne.

The course content is similar to the first year of a bachelor degree but the classroom environment is different. Classes are smaller and you will have more individual attention from your teachers to help you adjust to university. Your class will include local and international students, providing an enriching study experience.

Pathway opportunities

By successfully completing all units of study of a UniLink diploma, you're guaranteed a place in the first or second year of a Swinburne bachelor degree. The stream you choose will develop the study skills specific to your area of interest and prepare you for success in your bachelor program.

At Swinburne Melbourne, UniLink diplomas are available in:

- Arts and Communication
- Business
- Design
- Engineering
- Health Science
- Information Technology
- Science.

Did you know?

If you have completed a recognised Year 12 plus at least part of a recognised tertiary qualification, you may be able to achieve advanced standing which may shorten the duration of the program.

Progression requirement

Students completing a UniLink diploma must pass all units of study for entry into a bachelor degree.

Diploma of Arts and Communication (UniLink)

8 months | Melbourne | February, June, October | A$34,800 | 089744B

Study Arts and Communication to learn about significant issues in today's society. Develop creative skills and research-based knowledge. Use critical thinking to offer solutions to the world's most pressing problems.

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Arts
- Bachelor of Criminal Justice and Criminology
- Bachelor of Games and Interactivity
- Bachelor of Health Science
- Bachelor of Media and Communication

Diploma of Business (UniLink)

8 months | Melbourne | C | February, June, October | A$34,960 | 085473G

Study Business to learn about the entrepreneurial mindset. Get broad knowledge in key areas of commerce, like marketing, economics and accounting. Develop key skills in problem solving, networking and communication.

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Accounting
- Bachelor of Aviation Management
- Bachelor of Business
- Bachelor of Business Analytics
- Bachelor of Information and Communication Technology

Diploma of Design (UniLink)

8 months | Melbourne | February, June, October | A$35,960 | 085471K

Study Design to learn how to articulate your creative ideas in different mediums. Learn about the history of art and culture, and how it informs contemporary design. Develop critical thinking skills to offer solutions to design challenges.

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Design
- Bachelor of Design (Architecture)
- Bachelor of Design (Fashion)
- Bachelor of Design (Industrial Design) (Honours)
- Bachelor of Design (Interior Architecture) (Honours)
- Bachelor of Games and Interactivity

Diploma of Engineering (UniLink)

8 months | Melbourne | C | February, June, October | A$38,440 | 085477D

Study Engineering to learn about standard engineering practices and principles. Learn how to make evaluations and calculations when designing and planning a project. Get broad knowledge of material analysis, kinematics, and sustainable practices.

Prerequisite subject Advanced Mathematics

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Aviation and Piloting
- Bachelor of Aviation Management
- Bachelor of Engineering (Honours)

Diploma of Health Science (UniLink)

8 months | Melbourne | C | February, June, October | A$38,440 | 088689A

Study Health Science to learn about global health science issues from a range of perspectives. Learn about concepts, theories, practices and evidence relating to health science in today's world.

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Health Science
- Bachelor of Exercise and Sport Science
- Bachelor of Psychological Sciences
- Bachelor of Science

Diploma of Information Technology (UniLink)

8 months | Melbourne | C | February, June, October | A$35,360 | 085475F

Study Information Technology to learn about computing hardware and software. Learn about web-based applications and cloud computing. Understand database-modelling techniques and how to use them.

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Business Analytics
- Bachelor of Computer Science
- Bachelor of Cyber Security
- Bachelor of Data Science
- Bachelor of Information and Communication Technology

Diploma of Science (UniLink)

8 months | Melbourne | February, June | A$38,440 | 089746M

Study Science to build a scientific career using physics, biology, chemistry and mathematics. Learn how to conduct scientific research and solve conceptual problems. Get practical skills in data modelling and analysis, as well as computer-based analysis.

Note: Course fees are subject to change.

Pathway opportunities
- Bachelor of Science

Swinburne Sarawak, Malaysia

Swinburne Sarawak offers courses in business, design, engineering, IT, and science. All courses are identical to those offered on the Hawthorn campus, and degrees are awarded with Australian testamurs.

For more, visit **www.swinburne.edu.my**

Bachelor of Business

3 years | Sarawak | February, September

Gain core skills in business practices and decision-making before beginning major studies in your area of specialisation. Cap it off with final-year consulting projects that will help you launch your future career.

Professional accreditation: The Accounting major is professionally accredited through CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ), Chartered Institute of Management Accountants (CIMA) and Association of Chartered Certified Accountants (ACCA). The Human Resource Management major is professionally accredited by the Australian Human Resources Institute.

Majors: Accounting, Accounting and Finance, Finance, Human Resource Management, International Business, Management, and Marketing.

Pathway options
- Swinburne Foundation Studies (Business)
- Diploma of Accountancy
- Diploma of Business Management

Bachelor of Computer Science

3 years | Sarawak | February, September

Learn about software development, the internet of things, networking and cybersecurity while gaining a sound understanding of the traditional aspects of computer science.

Professional accreditation: This degree is professionally accredited by the Australian Computer Society.

Majors: Artificial Intelligence, Cybersecurity, Data Science, Internet of Things, and Software Development.

Pathway options
- Swinburne Foundation Studies (Information Technology/Multimedia)

Bachelor of Design

3 years | Sarawak | February, September

Gain the knowledge you need to combine creativity with business sense and insight. Get hands-on skills in your chosen major through a professionally focused, multidisciplinary project in your final year of study.

Majors: Graphic Design, and Multimedia Design.

Pathway options
- Swinburne Foundation Studies (Design)

Bachelor of Engineering (Honours)

4 years | Sarawak | February, September

Complete core units in your first year that introduce different engineering fields and to assist in selecting a major. Apply your learning in a professionally focused, multidisciplinary project during your final year of study.

Professional accreditation: This degree is professionally accredited by Engineers Australia.

Graduates are eligible for registration with Board of Engineers Malaysia (BEM).

Majors: Civil, Chemical, Electrical and Electronic, Mechanical, and Robotics and Mechatronics.

Pathway options
- Swinburne Foundation Studies (Engineering/Science)

Key Duration | Location | Alternate locations (see below) | Intake

Bachelor of Information and Communication Technology

3 years | Sarawak | February, September

Explore computer and network configurations, web and application programming, and database design and maintenance.

Professional accreditation: This degree is professionally accredited by the Australian Computer Society.

Majors: Network Technology, and Software Technology.

Pathway options
- Swinburne Foundation Studies (Information Technology/Multimedia)

Bachelor of Media and Communication

3 years | Sarawak | February, September

Develop key skills in professional communication and media content creation. Students will also benefit from Swinburne's partnership with Adobe which gives you free access to the Adobe Creative Cloud while studying.

Majors: Social Media

Pathway options
- Swinburne Foundation Studies (Business)
- Swinburne Foundation Studies (Design)

Bachelor of Science

3 years | Sarawak | February, September

Ignite your curiosity with our science programs in the fields of biotechnology or environmental science, and build your connections with national and international industries and researchers.

Majors: Biotechnology, and Environmental Science.

Pathway options
- Swinburne Foundation Studies (Engineering/Science)

Foundation Year

1 year | Sarawak | January, February, July, September

- Swinburne Foundation Studies (Business)
- Swinburne Foundation Studies (Design)
- Swinburne Foundation Studies (Engineering/Science)
- Swinburne Foundation Studies (Information Technology/Multimedia)

Successful completion of Foundation Year provides a pathway to first year of a related bachelor degree as long as you meet the bachelor degree entry requirements and prerequisites.

Pathway opportunities
- Bachelor of Business
- Bachelor of Design
- Bachelor of Computer Science
- Bachelor of Engineering (Honours)
- Bachelor of Information and Communication Technology
- Bachelor of Media and Communication
- Bachelor of Science

Vocational Education

from 2 to 3 years | Sarawak | February, September

- Diploma of Accountancy
- Diploma of Business Management
- Diploma of Digital Media Design
- Diploma of Early Childhood Education
- Diploma of Information Technology
- Diploma of Quantity Surveying

Successful completion of a diploma may provide a pathway to second year of a related bachelor degree long as you meet the bachelor degree entry requirements and prerequisites.

Pathway opportunities
- Bachelor of Business
- Bachelor of Computer Science
- Bachelor of Design
- Bachelor of Early Childhood Education
- Bachelor of Information and Communication Technology

Key Duration | Location | Alternate locations (see below) | Intake

International partners

As a world-ranked university, Swinburne partners with international education institutions to deliver world-class education. That means you can get your Swinburne degree at home, closer to home, or somewhere brand new. Our partners are your ticket to becoming a global citizen.

Pathway partner

Nawaloka College of Higher Studies (NCHS) (Sri Lanka)

If you're looking for a pathway into a bachelor degree, you can successfully complete a Foundation Year or UniLink Diploma in Sri Lanka and enter the second year of a bachelor degree.

For more information on Foundation Year and UniLink programs see pages 64 and 68.

Visit **nchs.edu.lk/swinburne**

Foundation program

8 months | Colombo, Kandy | February, June, October

- Swinburne Foundation Studies (Business)
- Swinburne Foundation Studies (Engineering/Science)

Successful completion of Foundation Year provides a pathway to first year of a related bachelor degree as long as you meet the bachelor degree entry requirements and prerequisites.

Pathway opportunities to Melbourne
- Bachelor of Business
- Bachelor of Computer Science
- Bachelor of Engineering (Honours)
- Bachelor of Information and Communication Technology

UniLink Diploma

8 months | Colombo, Kandy (Business and IT only) | February, June, October

- Diploma of Business (UniLink)
- Diploma of Engineering (UniLink)
- Diploma of Health Science (UniLink)
- Diploma of Information Technology (UniLink)

Successful completion of a UniLink Diploma provides a pathway to second year of a related bachelor degree as long as you meet the bachelor degree entry requirements and prerequisites.

Pathway opportunities to Melbourne
- Bachelor of Business
- Bachelor of Business Analytics
- Bachelor of Computer Science
- Bachelor of Engineering (Honours)
- Bachelor of Information and Communication Technology
- Bachelor of Science

*Transfer or spend a semester at Swinburne in Melbourne Australia. Visit the institution's website for more information.

Optimising your university experience

From the day you start planning to move countries till the day you graduate, we have all the information you need to make your Swinburne experience amazing.

Living options, costs and visas

From on-campus apartments to living with a host family, explore all your options here.

We understand how important it is for you to plan your budget carefully. Find out what things cost in Melbourne and how banking works here.

Discover all the information you need to apply for an Australian student visa here.

Feeling confident

We're here to help you through all aspects of life during your time at uni.

Support services

We're geared up to help you with:

- careers and employment
- counselling
- health
- housing
- disability support
- financial advice
- advocacy and legal advice
- childcare.

Safety services

We take your safety seriously. Access these services any time you need them.

- take the Hawthorn Night Bus home if you live in the neighbourhood
- ask a patrolling security officer to walk you anywhere on campus
- link to emergency and support services, safety tools and campus maps via the Safe@Swin app
- speak to our Safer Community team for support on bullying, harassment and more.

International Student Advisers

Our dedicated team is here to answer any question you may have, whether big or small. Visas, accommodation, finding a job, help during emergencies and more. Read all about them.

Finding community

Get involved, volunteer and make social connections.

Life at Swinburne

Immerse yourself in campus life and make the most of the many opportunities available while studying at Swinburne. Find clubs, sport, volunteering and leadership opportunities here.

How to apply

Follow these steps carefully to ensure your application is processed properly.

1 Check your start date

Visit **swinburne.edu.au/study/options/find/start-dates** to check start dates for intakes. If you're an offshore international student, you should apply at least 3 months before your intake's start date.

2 Gather your documents

- Certified academic transcripts with grading system
- English translations where applicable
- Certified English proficiency test results
- Referee reports (if applicable)
- Portfolio (for design courses, if applicable)
- Course or unit syllabus if you're applying for credit transfer or Recognition of Prior Learning
- Copy of passport (photo page and relevant visa page).

3 Complete your application

Visit **student-swinburne.studylink.com**
If you need help, please speak to your registered Swinburne representative in your home country.

4 Wait for your offer

We will assess your application. If you're successful, you will receive a letter of offer via email.
The letter will indicate the:

- course you've been offered
- annual tuition fee*
- student services and amenities fee†
- course commencement date
- course duration
- deposit you need to pay
- fee for your visa-length overseas student health cover
- conditions to the offer.

*Tuition fees are based on a standard full-time study load per year. All fees are subject to annual review and may be adjusted. Visit **swinburne.edu.au/courses/fees/fees-for-international-students/** to learn more about fees. For the indicative fee for your course, see the course entry in this guide or visit the 'Fees' section on the course webpage **swinburne.edu.au/courses/find-a-course/**
†Tuition fees are generally inclusive of the Student Services and Amenities Fee (SSAF). Visit **swinburne.edu.au/courses/fees/student-services-amenities-fee/** to learn how the SSAF is used.

5 Accept your offer

Accept by the date specified in your offer letter.
Visit **swinburne.edu.au/study/international/offer** to find out how to accept your offer.

Note: If you receive a conditional offer, you need to meet the condition(s) outlined in your offer letter.

Visit **swinburne.edu.au/study/international/apply** for detailed application instructions.

If you need help with your application, email our application adviser at **international@swinburne.edu.au**

You can also speak with a registered Swinburne representative in your home country. Visit **eap.ascentone.com/swinburne** to search for a list of Swinburne representatives in your country.

Other information

Applying for credit transfer

What is credit transfer?

Credit transfer is exemption from certain course requirements in recognition for previous study. The term 'credit' is used interchangeably with 'Recognition of Prior Learning', 'advanced standing' and/or 'status' in Australian universities.

How to apply for credit transfer

You can apply for credit transfer by submitting a course or unit (subject) syllabus or other evidence of your skills with your application. You must also indicate on your application form that you're applying for credit transfer.

If you're applying for credit transfer for a design course you may need to submit a portfolio.

If your application for credit transfer is successful, your letter of offer will state the updated course duration and the amount of credit for which you have been assessed. If you do not apply for credit transfer when you submit your application, you can do so within the first week of commencing your course. Applications for credit transfer made after this time may not be approved.

Applying for your student visa

You'll need to obtain an Overseas Student Confirmation of Enrolment (CoE) from Swinburne to complete your student visa application. Your CoE must accompany your application.

Visit **homeaffairs.gov.au** for more information

Overseas student health cover

All student visa holders must have overseas student health cover (OSHC) for the duration of their study.

Once you have been successful in your application to study at Swinburne, you will need to organise OSHC – a requirement of your student visa. This cover must be valid for the entire duration of your stay in Australia, including before you start and after you finish your studies..

Swinburne is pleased to partner with Medibank to offer international students the opportunity to purchase Medibank's Comprehensive OSHC, giving you access to additional benefits compared to the Essentials OSHC.

If you choose Medibank's Comprehensive OSHC, Swinburne will organise the cover on your behalf as either a single, couple, single parent or family policy.

medibank
For Better Health

Visit **swinburne.edu.au/study/international/visa/overseas-student-health-cover**

Students under 18

If you're under 18 years of age, your parents must nominate a guardian who lives in Australia before you can be considered for a student visa. Your guardian must be over 21 years old, related to you and of good character.

If you do not have an appropriate guardian with whom you may live in Australia, you'll need to engage a Swinburne-approved care provider. This arrangement will include accommodation restrictions and places may be limited depending on the availability of suitable accommodation options.

Students with families

If you plan to bring your family to Australia, check if any restrictions apply by contacting the Department of Home Affairs or the Australian diplomatic mission in your country. You'll also need to hold OSHC membership for your family.

Visit **swinburne.edu.au/study/international/plan-arrival/family**

Children

If you have children between five and 15 years of age who you plan to bring to Australia, you must enrol them in school. Full fees are payable at both government and non-government schools.

If you'll be enrolled as a postgraduate research student at Swinburne, the Victorian Government may provide exemption from tuition fees in Victorian government primary and secondary schools for your children.

Visit **education.vic.gov.au** to find a complete list of Victorian primary and secondary schools. Information about fees, applications and enrolment for government, primary and secondary schools may be found online at **study.vic.gov.au**

Applications to non-government schools must be made directly to the school of your choice.

Note: Your student visa assessment criteria may change if your family is accompanying you to Australia.

Your rights and responsibilities

The Educational Services for Overseas Students (ESOS) Act regulates the education and training sector's involvement with overseas students studying in Australia on student visas.

Visit **studyinaustralia.gov.au/global/australian-education/education-system/esos-act** to read a description of the ESOS framework.

Restrictions may apply if you wish to change your enrolment. Visit **swinburne.edu.au/current-students/manage-course/enrolment-timetable/time-off/international** for more information about deferring, suspending or cancelling your enrolment.

Visit **swinburne.edu.au/current-students/manage-course/fees/fees-for-international-students/refunds** to read Swinburne's refund provisions, which are outlined in the offer acceptance form.

Glossary of terms

Word	Definition	Example
Unit	A subject within a course. Units are assigned credit points, some are worth 12.5 credit points, and some are worth 25.	*'I'm doing 4 units this semester.'*
Credit points	Used to measure study load, course progress and completion.	*'This unit in my Business degree is worth 25 credit points. It's an industry-linked project and carries more weight.'*
Major	The primary area of study, it usually totals 100 credit points.	*'I am doing a Bachelor of Business, majoring in Entrepreneurship and Innovation.'*
Minor	A secondary area of interest, it usually totals 50 credit points.	*'I am doing a Bachelor of Business, majoring in Entrepreneurship and Innovation with a minor in Finance.'*
Elective	A unit that is optional and can be unrelated to the main areas of study. Usually 12.5 credit points per unit.	*'I am doing a Bachelor of Business, majoring in Entrepreneurship and Innovation, with a minor in Finance and electives in Organisation Behaviour and Managing Workplace Relations.'*
Semester	The academic year is divided into two: semester one, January to June; semester two, July to December.	*'I will be going on the Business Innovation in Europe Study Tour in the second semester of 2021.'*
Work Integrated Learning	Opportunities that include professional internships, industry-linked projects and study tours.	*'There are so many Work Integrated Learning Opportunities. I'm trying to decide between an Internship and an Overseas study tour, or both!'*
Prerequisite	A mandatory minimum requirement for course entry.	A course may require students to have achieved a raw score of at least 25 in Year 12 English or at least 30 in English (EAL).
Pathway	A course that can lead on to another course, often the 'dream course.' Some pathways offer 'credit' for units that are similar / the same.	Diploma of Business (UniLink) offers 8 units credit exemption. Meaning that when students successfully complete the UniLink Diploma, they can move on to the second year of the Bachelor of Business.
Bachelor degree / degree / undergraduate degree / undergrad	A post-secondary-school qualification that is awarded by a university.	• *'I'm busy doing my undergrad in Business.'* • *'I'm busy doing a bachelor degree in Business.'* • *'I'm doing an undergraduate degree in Business.'*
