Murdoch College | in association with Murdoch University

2026 Student Course Guide

YOUR ON-CAMPUS PATHWAY TO MURDOCH UNIVERSITY

Vice Chancellor's **Welcome**

At Murdoch we are all, always learning, growing, and discovering. We actively encourage creativity and critical thinking because university is a place to truly explore your potential and create a future you are proud of.

Murdoch is a 21st century university. Our think-for-yourself philosophy has led to ground-breaking research, game-changing technological advancements, and a reputation for producing graduates who are not afraid to put their stamp on the world.

So be bold, be curious, make the decision that is right for you, and if we are fortunate enough, I look forward to welcoming you to Murdoch University soon.

Professor Andrew J Deeks
Vice Chancellor and President

Acknowledgement of Country

Murdoch University acknowledges the Whadjuk people of the Noongar nation as the traditional custodians of this country and its waters and that Murdoch University stands on Noongar Country.

Murdoch University pays its respects to Noongar elders past and present and acknowledges their wisdom and advice in teaching and cultural knowledge activities.

Welcome to **Murdoch College**

Murdoch College, located on the Murdoch University Campus, is dedicated to providing you with a highly rewarding academic experience that will help you develop the skills and knowledge you need to be successful at Murdoch University.

Murdoch College's academically rigorous programs and outstanding support offer you the best opportunity to prepare for life and studies at university, and to thrive in that environment.

With our passionate teachers and College Services Team, along with your dedication and engagement, you will be well on your way to achieving your academic and career goals.

I look forward to welcoming you to Murdoch College, in the beautiful city of Perth.

Paul Aucoin
College Director

Welcome to Western Australia

The powerhouse of the Australian economy.

Western Australia's economy is export-oriented, with around half of Australia's exports of goods originating from the state each year, including minerals, petroleum, agri-food and specialised manufactured goods. WA also attracts many international visitors and students.

These export industries support employment across the WA economy resulting in one of the best opportunities for students to live and work part time. Thanks to WA's mining industry, the state boasts the biggest take-home pay packet of the nation.

Perth, the capital of Western Australia, sits where the Swan River meets the southwest coast. It is the largest city in Western Australia and the fourth most populous city in Australia and Oceania.

47%

Western Australia accounted for 47% of Australia's goods exports in 2024

Western Australia has higher average weekly earnings than the rest of Australia, due in part to the relatively high proportion of full-time workers in Western Australia employed in the highly paid mining and mining services industries.

57%

Western Australia's GSP per capita is $155,644, 57% higher than Australia's GSP per capita of $99,128

10.9%

Western Australia's population was 2.98 million in 2025, which was 10.9% of Australia's population

10%

In 2025 the average weekly earnings in Western Australia was $2,245, 10% higher than the national average of $2,004

The above information is from Western Australia Economic Profile – March 2025.

A Strong Economy

With a thriving start-up scene and an abundance of job and internship opportunities, Western Australia boasts one of the best performing economies in the world.

There are many exciting career and job opportunities available to international students studying in Western Australia. WA is classified as a regional destination; as an international student, you may be eligible for post-study work rights.

International students can register at Study Perth's Careers Centre employability portal to access their Careers Connect support.

This service assists students in developing their career pathway, connecting with employment opportunities or securing a part-time job while studying.

Jobs Connect forums are also run regularly by the Department of Jobs, Tourism, Science and Innovation to connect West Australian employers with international students to help find them the best job for their skillset.

2025 Indicative Cost of Living

The day-to-day living costs in Perth for international students are lower than other major cities in Australia (and worldwide), making it an affordable destination and attractive place to live.

The prices in the table to the right are indicative. Your living costs will depend on various factors including your financial capacity, where you stay, the costs associated with your studies and other lifestyle needs and preferences.

APPROXIMATE COSTS (WEEKLY)	MURDOCH UNIVERSITY VILLAGE	HOMESTAY (CATERED)	INDEPENDENT (1 BEDROOM TENANCY)
Accommodation	AU$209–$487	AU$350–$405	AU$450+
Utilities	AU$0(included)	AU$0(included)	AU$80–$140
Groceries & supplies	AU$80–$120	AU$0(included)	AU$80–$120
Internet/mobile	AU$20–$50(internet included)	AU$40–$70	AU$40–$70
Public transport	AU$20–$25	AU$20–$25	AU$20–$25
Miscellaneous	AU$25–$50	AU$25–$50	AU$25–$50
Average weekly total	AU$354–$732	AU$435–$550	AU$695–$855

Explore **Perth and Western Australia**

Experience sunny Perth at its best, from the vibrant streets of Fremantle to the stunning wildlife of Rottnest Island and the Coral Coast. Discover unique attractions like the historic Fremantle Markets, the beautiful beaches along Cottesloe, the diverse marine life in the surrounding waters, and the breathtaking landscapes of the Pinnacles in the desert. Whether you're exploring trendy urban neighbourhoods or enjoying the natural wonders, Western Australia has something for everyone!

Close to Home

1 Elizabeth Quay

An exciting waterfront precinct on the banks of the Swan River, Elizabeth Quay is a vibrant destination with activities for people of all ages. It features the BHP Water Park, public artworks, a range of world-class bars and restaurants.

2 Kings Park and Botanic Gardens

One of the largest inner-city parks in the world, boasting over 300 species of wildflowers. Explore the suspended bridge, or enjoy a movie at the outdoor cinema with stunning views of the city. It's a perfect blend of nature and urban charm!

3 Rottnest Island

Just 20km off the coast of Perth, Rottnest Island is the perfect destination for a day away from study or a longer island vacation, with 63 stunning beaches and vibrant coral reefs for you to explore. It's also home to unique wildlife including the quokka, the happiest animal on the planet! Perfect for a day of adventure and relaxation!

4 Cottesloe Beach

Famous for its pristine white sand and turquoise water, Cottesloe Beach is one of Perth's most popular beach destinations for swimming, surfing, and breathtaking sunsets. It is also home to Australia's largest open-air art exhibit.

5 Fremantle

The historic port-city of Fremantle is renowned for its laid-back attitude, art and culture, vibrant cappuccino strip and internationally acclaimed restaurants. Explore the charming streets, soak in the atmosphere, and enjoy delicious food and drinks!

6 Northbridge

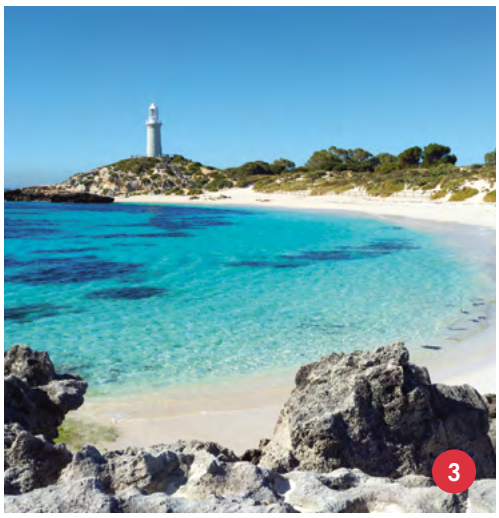

A buzzing hub of hip bars, fantastic restaurants, quirky boutiques and exquisite art, Northbridge is the place where Perth comes alive. With the Perth Cultural Centre at its heart, there is always something to do in Northbridge.

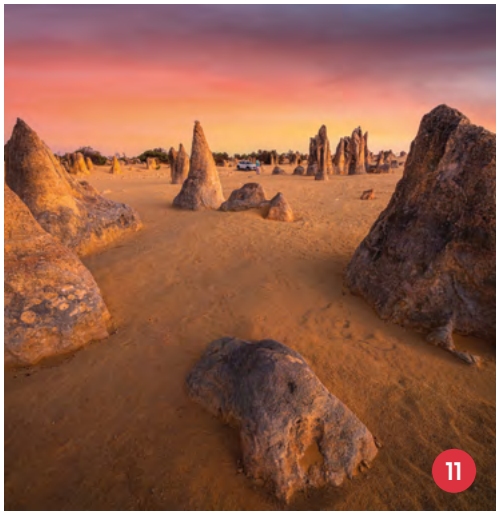

Further Afield

7 Margret River

In the region where rolling vineyards meet breathtaking coastal and forest scenery, you can experience award-winning wineries and restaurants. Explore stunning beaches, lush forests, and ancient caves for a perfect blend of relaxation and adventure.

8 Karijini National Park

Two billion years in the making, Karijini National Park is one of Western Australia's most breathtaking natural attractions. It features incredible hiking trails that wind through dramatic gorges, offering stunning views and a chance to connect with nature.

9 Ningaloo Reef

Discover a diverse array of marine wildlife, including sea turtles, orcas, manta rays, whale sharks, and dugongs, in this World Heritage-listed reef. It is internationally recognised as one of the planet's last great ocean paradises for nature enthusiasts and ocean lovers.

10 South-West Australia

As a global biodiversity hotspot with 24 national parks, this region offers an incredible variety of natural wonders. In just a single day, you can explore stunning beaches, beautiful vineyards, lush forests, and fascinating caves.

11 The Pinnacles

These impressive natural limestone structures in the Nambung National Park were formed approximately 25,000 to 30,000 years ago. You will enjoy stunning views of the Pinnacles rising from the mysterious desert in the sunset.

10 reasons to choose **Murdoch**

You have a lot of big decisions ahead of you – not just about what to study, but where to study. Here are ten reasons why Murdoch University might be the perfect place for you...

1 Building a brighter future

Murdoch University was the second university established in WA, but the first in Australia to introduce flexible admissions, making education more accessible. By focusing on our three strategic themes: sustainability, equity, diversity and inclusion, and being the first choice for First Nations people, we remain committed to our purpose and are working towards a brighter future.

2 Student support services

Get help adjusting to uni life from a range of support services such as Student Central who can guide you through enrolments, classes, fees and parking. Or Peer Academic Coaches who help with study hacks and time management. Free health and wellbeing support is also available.

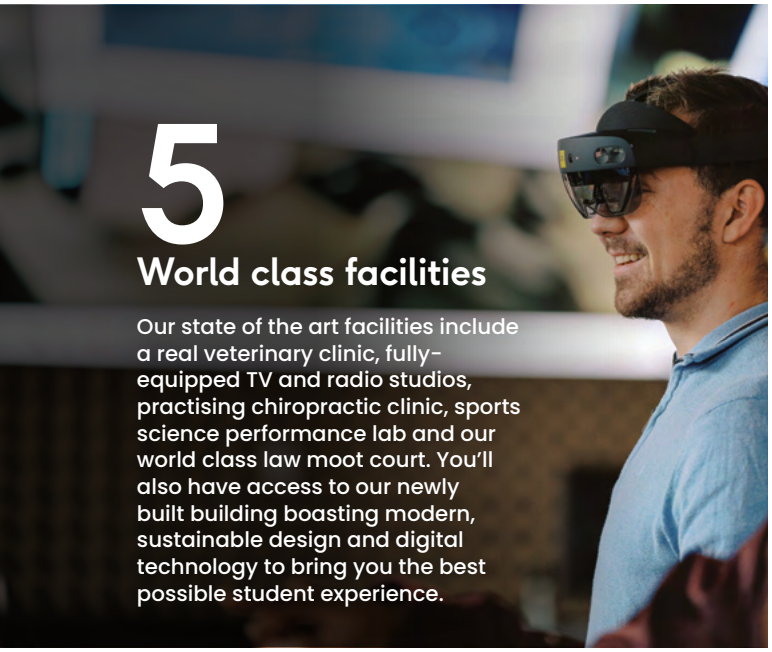

3 Wide range of courses

We have over 100 degrees to help you explore what you love doing and find your dream career. We also offer a range of pathways into our courses, so you don't need to be from a traditional academic background.

4 Shape your own degree

We offer some of the most flexible course options in WA. You can combine different majors for a totally unique degree and even broader range of career options. There are many combined degrees such as Law with Arts or Criminology with Science.

5 World class facilities

Our state of the art facilities include a real veterinary clinic, fully-equipped TV and radio studios, practising chiropractic clinic, sports science performance lab and our world class law moot court. You'll also have access to our newly built building boasting modern, sustainable design and digital technology to bring you the best possible student experience.

6 Industry partnerships

We work closely with industry, businesses, the community and government across a range of exciting projects and initiatives. This means you'll learn exactly what you need to know to meet current and future industry needs.

An international perspective

At Murdoch, you could help international communities, take field trips to different countries, study a language overseas or tour the world – all as part of your degree.

Our students come to Murdoch from more than 80 different countries and we offer exchange opportunities which can help set you up to work anywhere in the world.

7

8 Real skills

Our focus on both practical learning as well as critical and creative thinking means you'll develop the confidence and employability skills you need to make a real difference in the world. We embed career development learning in all bachelor degrees not already aligned with professional accreditations and offer a range of industry placements or project units.

9 Our Murdoch community

Making friends, exploring new interests and having fun are all a huge part of your uni experience. At Murdoch you'll have the chance to join our student clubs and guild, be part of a range of uni events, become a volunteer or spend your free time at our Sports and Recreation Centre.

10 Our leading academics

Our teaching staff have won awards, published books and achieved some amazing things – but most importantly they're committed to helping you learn. You can benefit from their experience, knowledge and networks of contacts to help launch your own career.

Our facilities

The Animal Hospital and Working Farms

Our Perth campus is home to a working farm and a fully equipped Veterinary Hospital complete with Small and Large Animal primary care and referral services and a busy emergency clinic.

Chiropractic Clinic

As a chiropractic student, you'll learn to treat patients in our on-campus chiropractic clinic, which houses a rehabilitation centre, physiological therapeutics facility, consulting rooms and a digital radiographic suite.

Engineering Pilot Plant

Our nationally renowned Bayer Pilot Plant is where our engineering technology students learn real-world skills. This engineer's playground is one of only a few in Australia and the only one of its kind in Western Australia.

IT Innovation Hub

Fitted out with the latest mixed and augmented reality equipment, operational data centre and high-performance computing capabilities, our IT Innovation Hub is a cutting-edge teaching, learning and research facility, specially designed for IT students.

Law Moot Court

In our Herbert Smith Freehills Moot Court, you will have the opportunity to try hypothetical cases in a courtroom environment, develop advocacy and mooting skills, and compete against other law schools from around the world.

Library

The library is a hub for learning, teaching and research for our Murdoch community. At the Murdoch library, you'll find a variety of study spaces alongside our vast collection of print and online resources, computers and support for your future studies and research.

Media Arts Centre

As a Creative Arts or Communications student, you'll get to experience our sound stage, television and radio studios, digital post-production facilities, sound-mixing studios, digital and creation workplaces, and professional video and editing suites.

Mind and Body Lab

This state-of-the-art facility includes fully equipped clinical assessment spaces for adults and children, specialist labs for neurophysiology, cognitive and social psychology research, and a virtual reality space.

Murdoch Psychology Clinic

Murdoch Psychology Clinic provides cognitive assessment, individual and group therapy for adults and a variety of assessments and interventions for children, couples and families. If your goal is to become a registered psychologist, you'll need to study an undergraduate degree in psychology and then continue your studies at postgraduate level.

Nexus Theatre

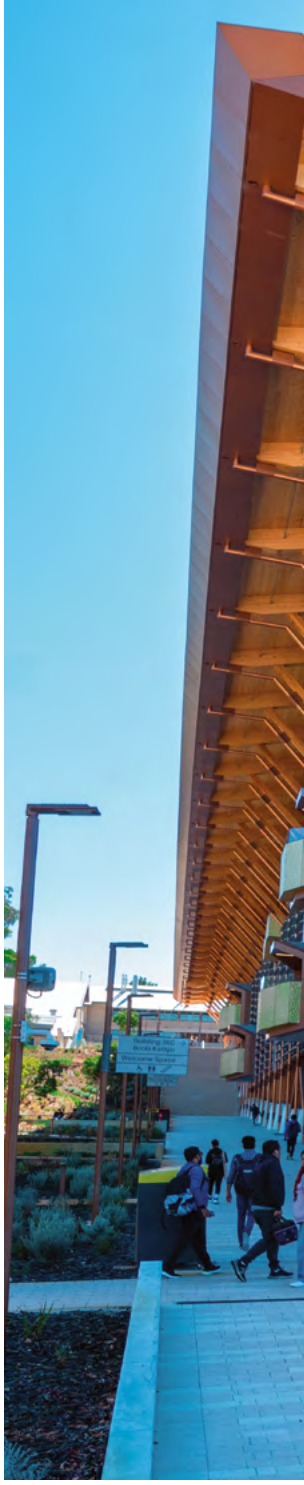

Equipped with world-class facilities, for the past 31 years Nexus Theatre has been providing students, staff and the Murdoch community with a modern teaching and performance space to enjoy.

SimLab™

Murdoch is proud to be the first university in Australia to offer SimLab™ technology for Education students. An immersive platform that gives students the opportunity to experience, practise and improve their teaching techniques in a safe learning environment.

Sports Science Facility

Our sports science facility houses a dedicated exercise physiology laboratory, complete with a climate and altitude chamber, plus a performance laboratory with motion capture system and running track. It also includes a rehabilitation, strength and conditioning laboratory, complete with fully equipped gym with Olympic lifting facilities. It is also home to a Mind and Body Lab with a fitness testing area and a DEXA machine.

World's best academic building - **Boola Katitjin**

Learn and collaborate with your classmates in our award winning*, technology-enriched building. Staying true to our commitment to the environment, Boola Katitjin has been designed to meet the high standards of the Green Building Council's 6 Star Green Star Design.

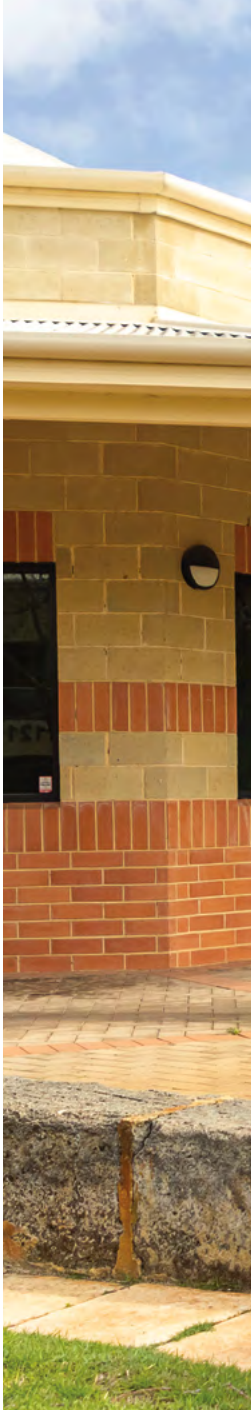

**Winner. Higher Education and Research Building, World Architecture Festival, 2023*

Live **your best uni life**

Student life at Murdoch is more than just learning in your chosen field – it's also about getting involved, having fun and making lifelong friends.

Murdoch Student Guild

Run by students, for students, the Murdoch Student Guild is a student advocacy, support and service organisation, run independently from the University. They run social events and a heap of extracurricular activities.

Esports Gaming Hub

Visit our new Esports Gaming Hub equipped with 12 state-of-the-art Alienware Gaming computers.

Student Hub

The Student Hub at our Perth campus is a flexible space where you can indulge in yummy food, socialise and co-work.

Keep active

Join a social sports team or the on-campus fitness centre with discounted memberships for students.

Campus events

Experience campus events like Festival Day, Stress Less Week, weekly Marketdaze stalls, and themed tavern events.

Join our clubs

Murdoch Guild clubs are the heart of campus life and culture. They bring students together outside the academic setting and provide unforgettable experiences, events and friendships. Boasting more than 35 affiliated clubs, we have something for everyone.

Student voice matters

Once you settle in, you can champion and co-design positive changes at Murdoch via the Students as Change Agents program - and get paid for it!

Support while you study

The transition to university can be daunting, but we're here to help. We offer a range of study and personal support services that can help you get the most out of your time at university.

Student learning

Our student learning support services will help you develop the academic and study skills you need to succeed at university and beyond. You can access self-help resources like Studiosity and Grammarly, or visit a Peer Academic Coach at any MyMurdoch Advice location on-campus or online. We also have great programs like Peer Academic Study Support to help you with specific units throughout your study.

Health and wellbeing

A healthy body and mind are crucial ingredients for student success. Visit the counselling and medical services for free or low-cost wellbeing support related to study, relationships, financial or personal stress, medical care, sexual health, nutrition, illness or injury.

Looking to chill out, decompress or meet new friends outside of the classroom? Or are you feeling lost or overwhelmed with Uni life? Come and speak with one of our friendly Student Ambassadors at The Den wellbeing drop-in space. Connect over board games or ping pong, pat a counselling dog, or have a cup of tea over crafts or puzzles. All free!

Student Central

The Student Central team will support you from the moment you arrive on-campus through to the day you graduate. You can chat to the team about fees, parking permits, how to enrol and sign up for classes, your student ID card, or general course information. Our services across Student Central will also provide advice on wellbeing, study or getting the most out of university. Student Success Advisors and Peer Academic Coaches are here to make your life easier by offering personalised support services on your studies, providing helpful resources and English language support, advising on course plans, showcasing academic skills, and much more.

Support for students with disability and health conditions

Murdoch University is committed to ensuring that students with disability and health conditions, or students who are carers for people with disability, are appropriately supported to enable equal access to study. Our team of professional accessibility advisors provide a confidential service tailoring support to your individual needs. There is also the NDIS pre-planning toolkit available if you are accessing the NDIS. It is designed to be used before starting your university studies.

LGBTIQA+ support and services

Murdoch University strives to be a place of belonging for all students. We are committed to supporting and celebrating community members who are sex, sexuality, and/or gender diverse, including but not limited to those who identify as LGBTIQA+. Pride at Murdoch means the inclusion of LGBTIQA+ students, staff, and community so that everyone can be safe and supported to be their whole self at study and work. Many staff and students are LGBTIQA+ Ally trained, there is a flourishing Murdoch Queer Collective, and the LGBTIQA+ Advisory Group regularly meet to advocate for and discuss initiatives relating to the LGBTIQA+ community.

Kulbardi Aboriginal Centre

If you're an Aboriginal or Torres Strait Islander student, the Kulbardi Aboriginal Centre is here to help you with academic, cultural and emotional support until you graduate.

Worship Centre

Based on our Perth campus, our multi-faith Worship Centre offers services and guidance for everyone.

Careers and employability

At Murdoch University, employability is woven into your academic journey. Our curriculum, infused with industry-relevant skills and knowledge, empowers you to graduate with confidence in an ever-evolving professional landscape.

We also have a comprehensive suite of free career development modules. Our dynamic careers portal is buzzing with industry events, job opportunities and downloadable careers and employability resources equipping you with the tools and tactics to navigate the competitive job market. No matter what stage you are at in achieving your career goals, we have you covered.

Additional support programs

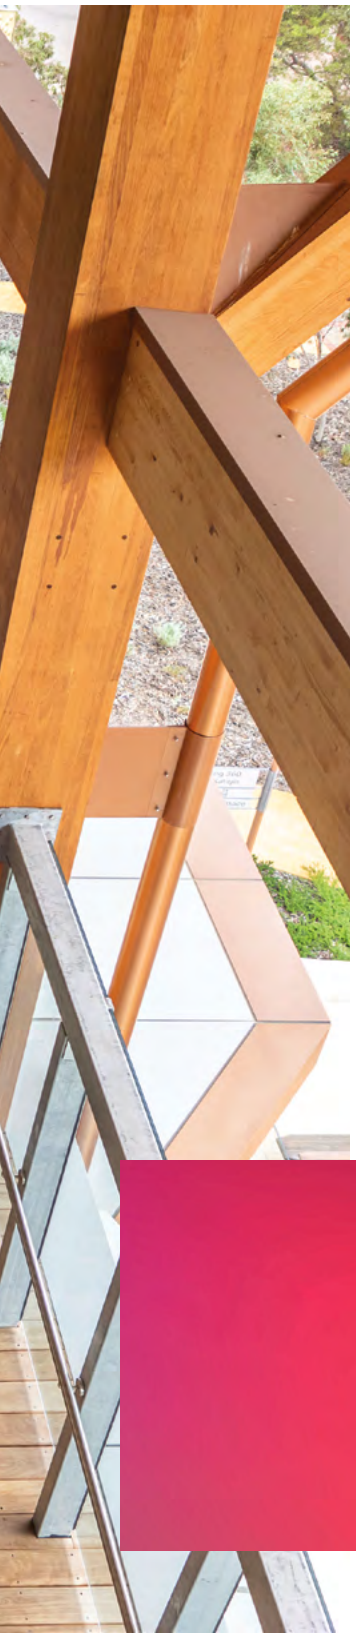

If you're an elite athlete or a member of the Australian Defence Force, our student support programs are here to provide additional support and to assist you in balancing your studies and additional commitments throughout your time at Murdoch.

Introducing **Murdoch College**

Your on-campus pathway to Murdoch University

Murdoch College supports students from around the world in taking their first steps towards tertiary study at Murdoch University. Our dedicated team is here to help you throughout your studies, to ensure a learning experience that will take you on to success at the University and beyond.

We place a special focus on student care, flexibility and safety. As the only pathway college on university grounds, you will be able to experience campus life while accessing world-class facilities.

Your pathway options

Study on Campus

Experience university life right from the start with all classes held at Murdoch University's Perth campus. Murdoch College students are part of the university community from day one and have access to a range of facilities and services.

While on campus, you will connect with University students to gain a better understanding of what studying in Australia is really like.

Direct Entry Pathways

It's never been easier to get into the degree you want. Murdoch College offers you a pathway into a range of Murdoch University degree programs. Graduate from our Foundation Studies program, or Murdoch University Preparation Course and move straight into the first year of your chosen degree, or complete a Diploma and start in the second year of a bachelor's degree. For students who have completed higher levels of study, our Postgraduate Qualifying Program offers a pathway into a range of master's degrees.

Preparation Oriented Learning

At Murdoch College we take a complete approach to university preparation. We don't just consider what you're learning, we also help you develop the skills you need to be successful in your studies.

You will experience a university-style course structure with tutorials in the Foundation Studies and Murdoch University Preparation Courses, and workshops for Diplomas and the Postgraduate Qualifying Program. Just like university students, you'll be assessed through exams, coursework, assignments and group tasks. You will develop study techniques over the duration of your time at Murdoch College, so by the time you're at university, you will have the skills to be proactive and independent in your study.

National Accreditation

Our Diploma programs are nationally accredited by the Tertiary Education Quality and Standards Agency (TEQSA) and are Australian Qualification Framework (AQF) recognised.

Academic Support

At Murdoch College we want you to get the most out of your studies so you can go on to the degree or career that's right for you. To help you do your best, we will provide you with ongoing support in the following areas:

- Study pathways course and unit selection
- Study skills and independent learning
- Examination techniques and personalised study plans
- Career choices and academic pathways

Personal Support

Being a student can be difficult sometimes, particularly when you are far away from home. If you are having a hard time missing friends and family or you're struggling with your workload, the Murdoch College Services Team and our Student Counsellor offer caring and confidential assistance with any situation that is impacting your studies.

Individual Attention

Our experienced and qualified academics care about the personal growth and success of every student. Benefit from our small class sizes where you will receive individual attention and focused support as you prepare for university life.

Packaged Enrolments

Murdoch College and Murdoch University offer packaged enrolments for international students. This means that you initially apply to both Murdoch College and Murdoch University at the same time. When you successfully graduate from Murdoch College, you are guaranteed direct entry into Murdoch University without having to reapply.*

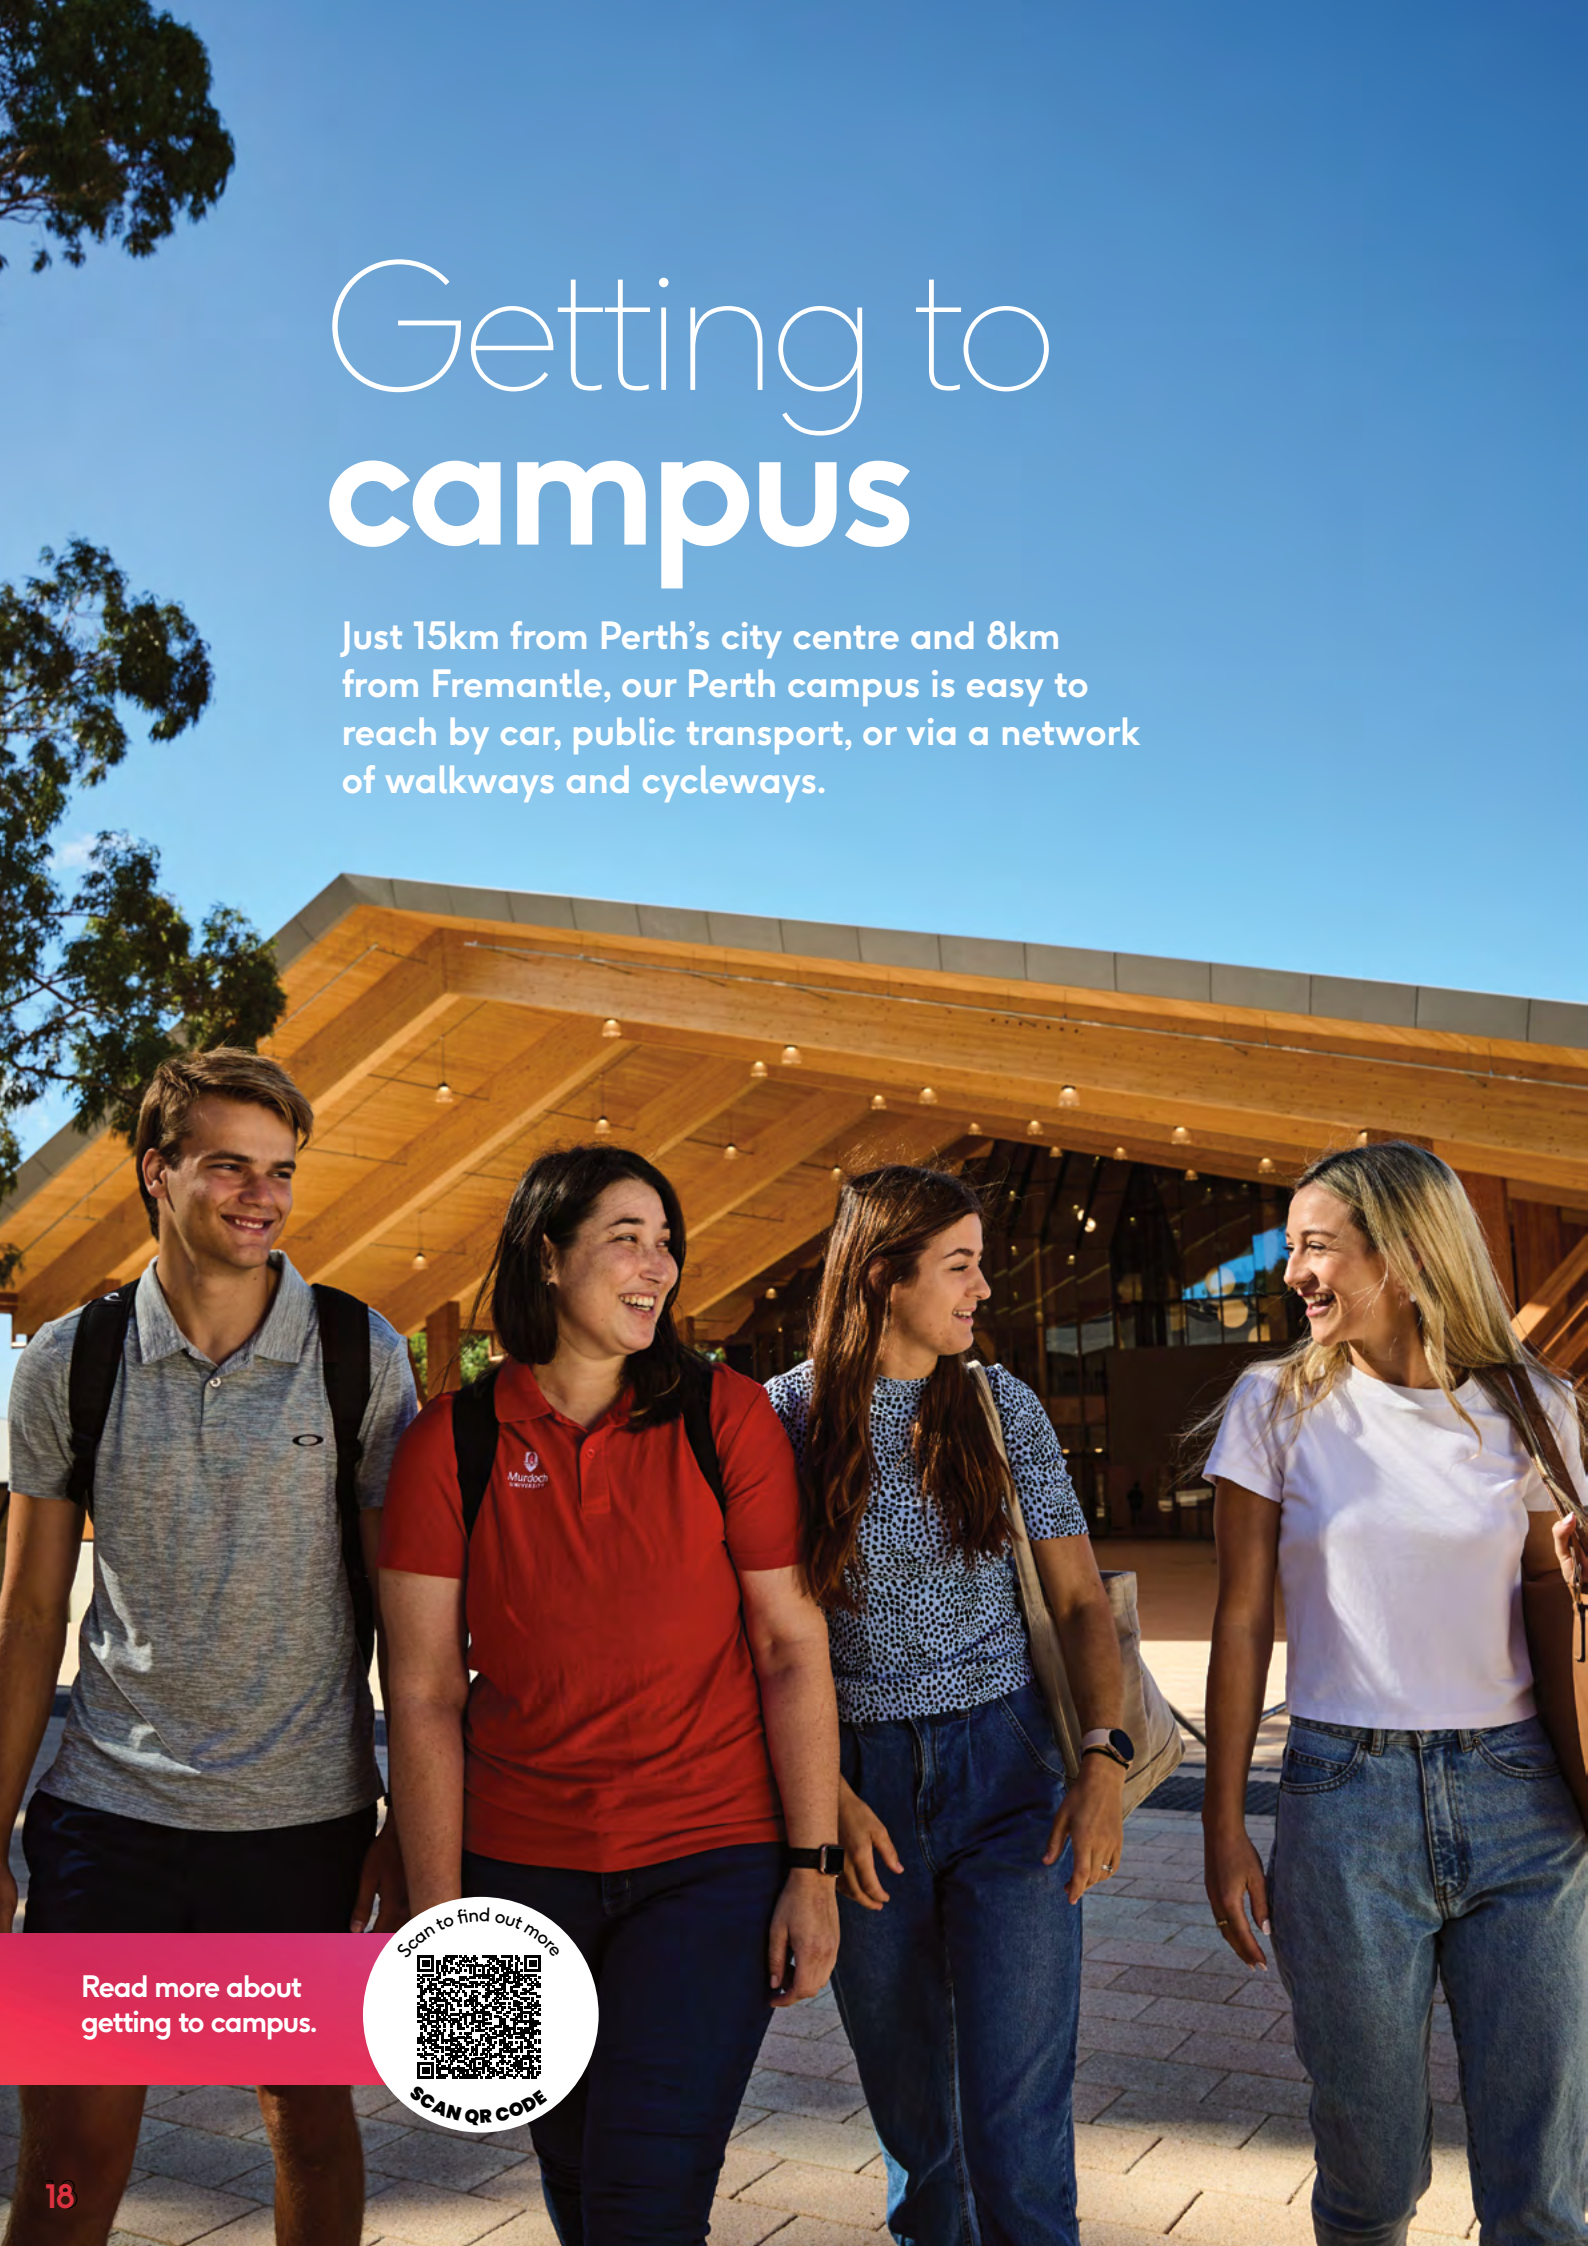

**Subject to meeting university progression requirements.*

Why study with us?

- Study on Campus
- Guaranteed pathway*
- Preparation for University
- Individual Attention and Support

Getting to **campus**

Just 15km from Perth's city centre and 8km from Fremantle, our Perth campus is easy to reach by car, public transport, or via a network of walkways and cycleways.

Read more about getting to campus.

Scan to find out more

SCAN QR CODE

Getting to Perth campus

Train

Just 15 minutes from the city to Murdoch train station, then either a quick trip by connecting bus or a 10 minute walk to the campus.

Bus

Regular bus services past campus.

Car

15 minutes from the city on Kwinana Freeway (exit South Street). There are almost 4,000 car park spaces, so there is ample parking available.

Bike

Excellent cycle routes to campus with secure bike storage available.

Mandurah campus

Set in the heart of a coastal town, our Mandurah campus offers clinical, academic and research expertise and state-of-the-art facilities. Getting here is easy as we're accessible by car, public transport and bicycle. You'll find us on Education Drive in Greenfields, Mandurah, next to South Metropolitan TAFE and close to the Kwinana Freeway.

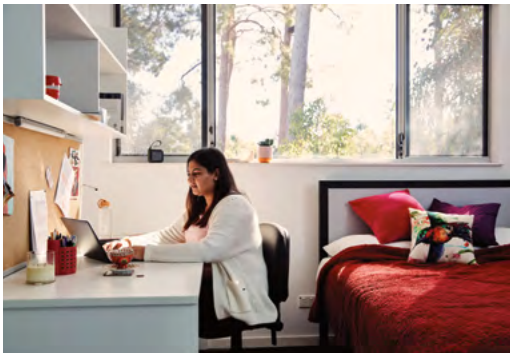

Rockingham campus

Our Rockingham campus focuses on our enabling pathway programs. We're located on Dixon Road in Rockingham, a major urban centre on the south coast of the Perth metro area, so we're easily accessible by car and public transport.

Accommodation

There are a range of accommodation options available for students when they come to study with us at Murdoch College, from on campus at Murdoch University Village, to independent rental or Australian Homestay. There's something for everyone.

1 On-campus Student Village

Enjoy the complete student experience by living on campus at Murdoch University. With easy access to classes and university facilities you'll have the opportunity to make friends in a fun environment where you will be encouraged to live, learn and grow. The Village also has direct access to public transport and a range of local shops, so nothing is ever too far away.

2 Shared or privately rented accommodation

If you want to live off-campus you have the option of renting a single room in a house or apartment that is occupied by several other people, or you can take on an entire lease for a single property yourself. In a share house you will have your own room, but amenities such as kitchens and bathrooms will generally be shared with your housemates. Shared accommodation is a great option if you don't want to live by yourself and you want to make friends with both local and international students.

3 Homestay

Homestay is a great option if you are looking to experience Australian culture and adapt to living and learning within a secure environment. You will be placed with a local host family who will welcome you into their home. Here you will benefit from a supportive family environment where English is the primary language spoken, allowing you to practice everyday conversation.

If you are under 18 you need to follow specific requirements about where you can live and who you can live with before you can get a student visa.

For more information on accommodation options.

Foundation Studies

Why study Foundation Studies with us?

Foundation Studies prepares you for successful transition to degree-level study, providing a pathway to the first year of study of a bachelor degree at Murdoch University. This program has been specifically designed for international students.

Pathway to any degree

This course is suited to you if:

- you need an entrance qualification for Murdoch University
- you want to accelerate your university preparation after Year 11, or equivalent
- you want to change your degree stream after Year 11, or equivalent

On successful completion* of your Foundation Studies program, you'll gain entry to the first year of most undergraduate degrees at Murdoch University, with the exception of Veterinary Science and Education. Veterinary Science can be accessed through the Bachelor of Agricultural Science (Animal Science) (0102135).

**Higher requirements and specific subject scores are required for Law and Engineering (Honours).*

Structure and Pathway

In the Foundations Studies program you will complete eight units over two study periods, studying a combination of core and elective units. The units you undertake will be determined by your chosen degree. Each unit of study builds concepts from an introductory level through to university entrance level. The units are designed to develop your learning techniques as well as bridging gaps in your academic knowledge.

Murdoch University

Preparation Course

Why Study a Murdoch University Preparation Course?

Our Murdoch University Preparation Course (MUPC) is very similar to the Foundation Studies Program however it has 2 variations — a standard course delivered over 3 trimesters and made up of 9 units and an accelerated version made up of 4 units and delivered over 1 trimester.

MUPC students study the same units as Foundation Studies students with a reduced study load to support their progression. The academic entry requirements, fees and articulation requirements for the MUPC course are the same as those for a Foundation Studies course.

The standard variation of our MUPC is a 9-unit course which is delivered over 3 trimesters and gives students the time they need to develop the necessary skills to succeed in their university studies.

The program is suited to you if:

- you don't have the high school results for you to gain entry to your chosen bachelor degree
- you want to change your degree stream
- you need to increase your chances of entering highly competitive courses at Murdoch University

Why Study the MUPC (Accelerated Entry)

MUPC (Accelerated Entry) has been designed for students who narrowly missed the direct entry requirements for the degree program of their choice. The MUPC (Accelerated Entry) provides students with the opportunity to improve their academic knowledge, and English language skills to enter university via a course which is appropriate to their previous level of study.

Quick Facts

COURSE	CRICOS CODE	DURATION	INTAKE	2025 INDICATIVE FIRST YEAR FEE (AUD)*	ENGLISH ENTRY REQUIREMENTS^	ACADEMIC ENTRY REQUIREMENTS	STUDY LOAD
MUPC	069100D	52 weeks 3 trimesters – 45 teaching weeks	Feb	$26,910 (international) $12,960 (domestic)	IELTS 6.0 overall (all bands 5.5 or above) or equivalent	Completion of Australian Year 11 or equivalent	8 hours per core unit per week, plus 6 hours per elective unit per week
MUPC (Accelerated Entry)	069100D	17 weeks 1 trimester – 15 teaching weeks	Feb and Oct	$13,455 (international) $6,480 (domestic)	IELTS 6.0 overall (all bands 5.5 or above) or equivalent	Successful completion of Year 12 or equivalent	8 hours per core unit per week, plus 6 hours per elective unit per week

Your pathway to Veterinary Science

Why study Veterinary Science at Murdoch University?

Western Australia's only Veterinary Science course provides the opportunity to develop the knowledge, skills and practical experience necessary to solve the existing and emerging problems of our companion animals, livestock and wildlife.

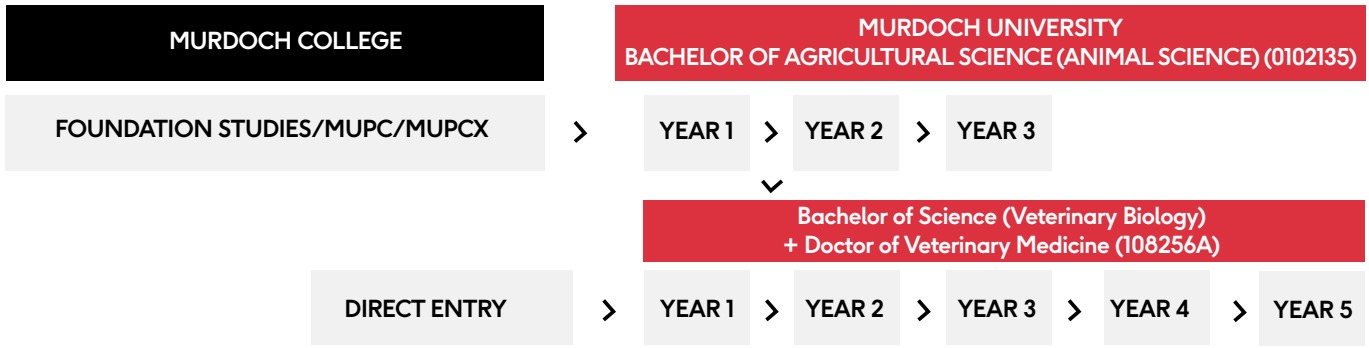

With a science-based approach and hands-on experience, this course prepares you for the highest standard of work in the veterinary industry.

To become a qualified veterinarian, you will need to complete the Bachelor of Science (Veterinary Biology) + Doctor of Veterinary Medicine degree over five years. Direct entry to this degree is extremely competitive and while possible, most students would seek an alternative pathway to this qualification.

Students who successfully complete the Murdoch College Foundation Studies Program, Murdoch University Preparation Course or the Murdoch University Preparation Course (Accelerated) can gain admission to the Bachelor of Agricultural Science (Animal Science). On successful completion of the first year of this degree students can progress, with advanced standing, to the Bachelor of Science (Veterinary Biology) + Doctor of Veterinary Medicine.

How to enter Veterinary Science from a pathway program?

Packaged offer with Bachelor of Agricultural Science (Animal Science)

Students who do a year of the Bachelor of Agricultural Science (Animal Science) before transferring to Vet Science perform just as well as (or better than) students who start Vet Science directly.

3 reasons to study Veterinary Science at Murdoch

1. Our veterinary science course is accredited with leading associations around the world, including the Australasian Veterinary Boards Council Inc, American Veterinary Medical Association and the Royal College of Veterinary Surgeons.
2. Learn real-world skills in our state-of-the-art facilities that include veterinary teaching hospitals, clinics and a working farm, all located on the Perth campus.
3. Extend your experience with all species of animals by completing placements with animal shelters, the Perth Zoo and a wide range of farms and veterinary practices, both in Australia and internationally.

Why choose Murdoch College?

- Study on-campus and enjoy a supportive and friendly transition to the university learning environment.
- Access university facilities and receive guidance from our academic advisors.
- Build a strong foundation for academic success and focus on the subjects you'll need to succeed in this highly competitive degree.
- Participate in Murdoch College workshops specifically designed to help you gain the voluntary animal handling experience required to gain admission to the Bachelor of Science (Veterinary Biology) + Doctor of Veterinary Medicine.

Minimum requirements to transfer to Bachelor of Science (Veterinary Biology) + Doctor of Veterinary Medicine

To transfer to the Bachelor of Science (Veterinary Biology) + Doctor of Veterinary Medicine from the Bachelor of Agricultural Science (Animal Science) you'll need the following:

- Minimum of 1 year (full-time equivalent) or 21 credit points (or equivalent) of the Bachelor of Agricultural Science (Animal Science).
- Minimum of 35 hours of veterinary-related experience, i.e. work experience with a veterinarian.
- Minimum academic performance: tertiary GPA >2.5 (out of 4) or >5.5 (out of 7) during your B Agricultural Science.
- Completion of the BSC/DVM Admissions interview.
- Completion of Casper assessment. Casper is an open-response situational judgement test (SJT) that evaluates social intelligence and professionalism.
- IELTS 7.0 in all bands or equivalent

Your future career

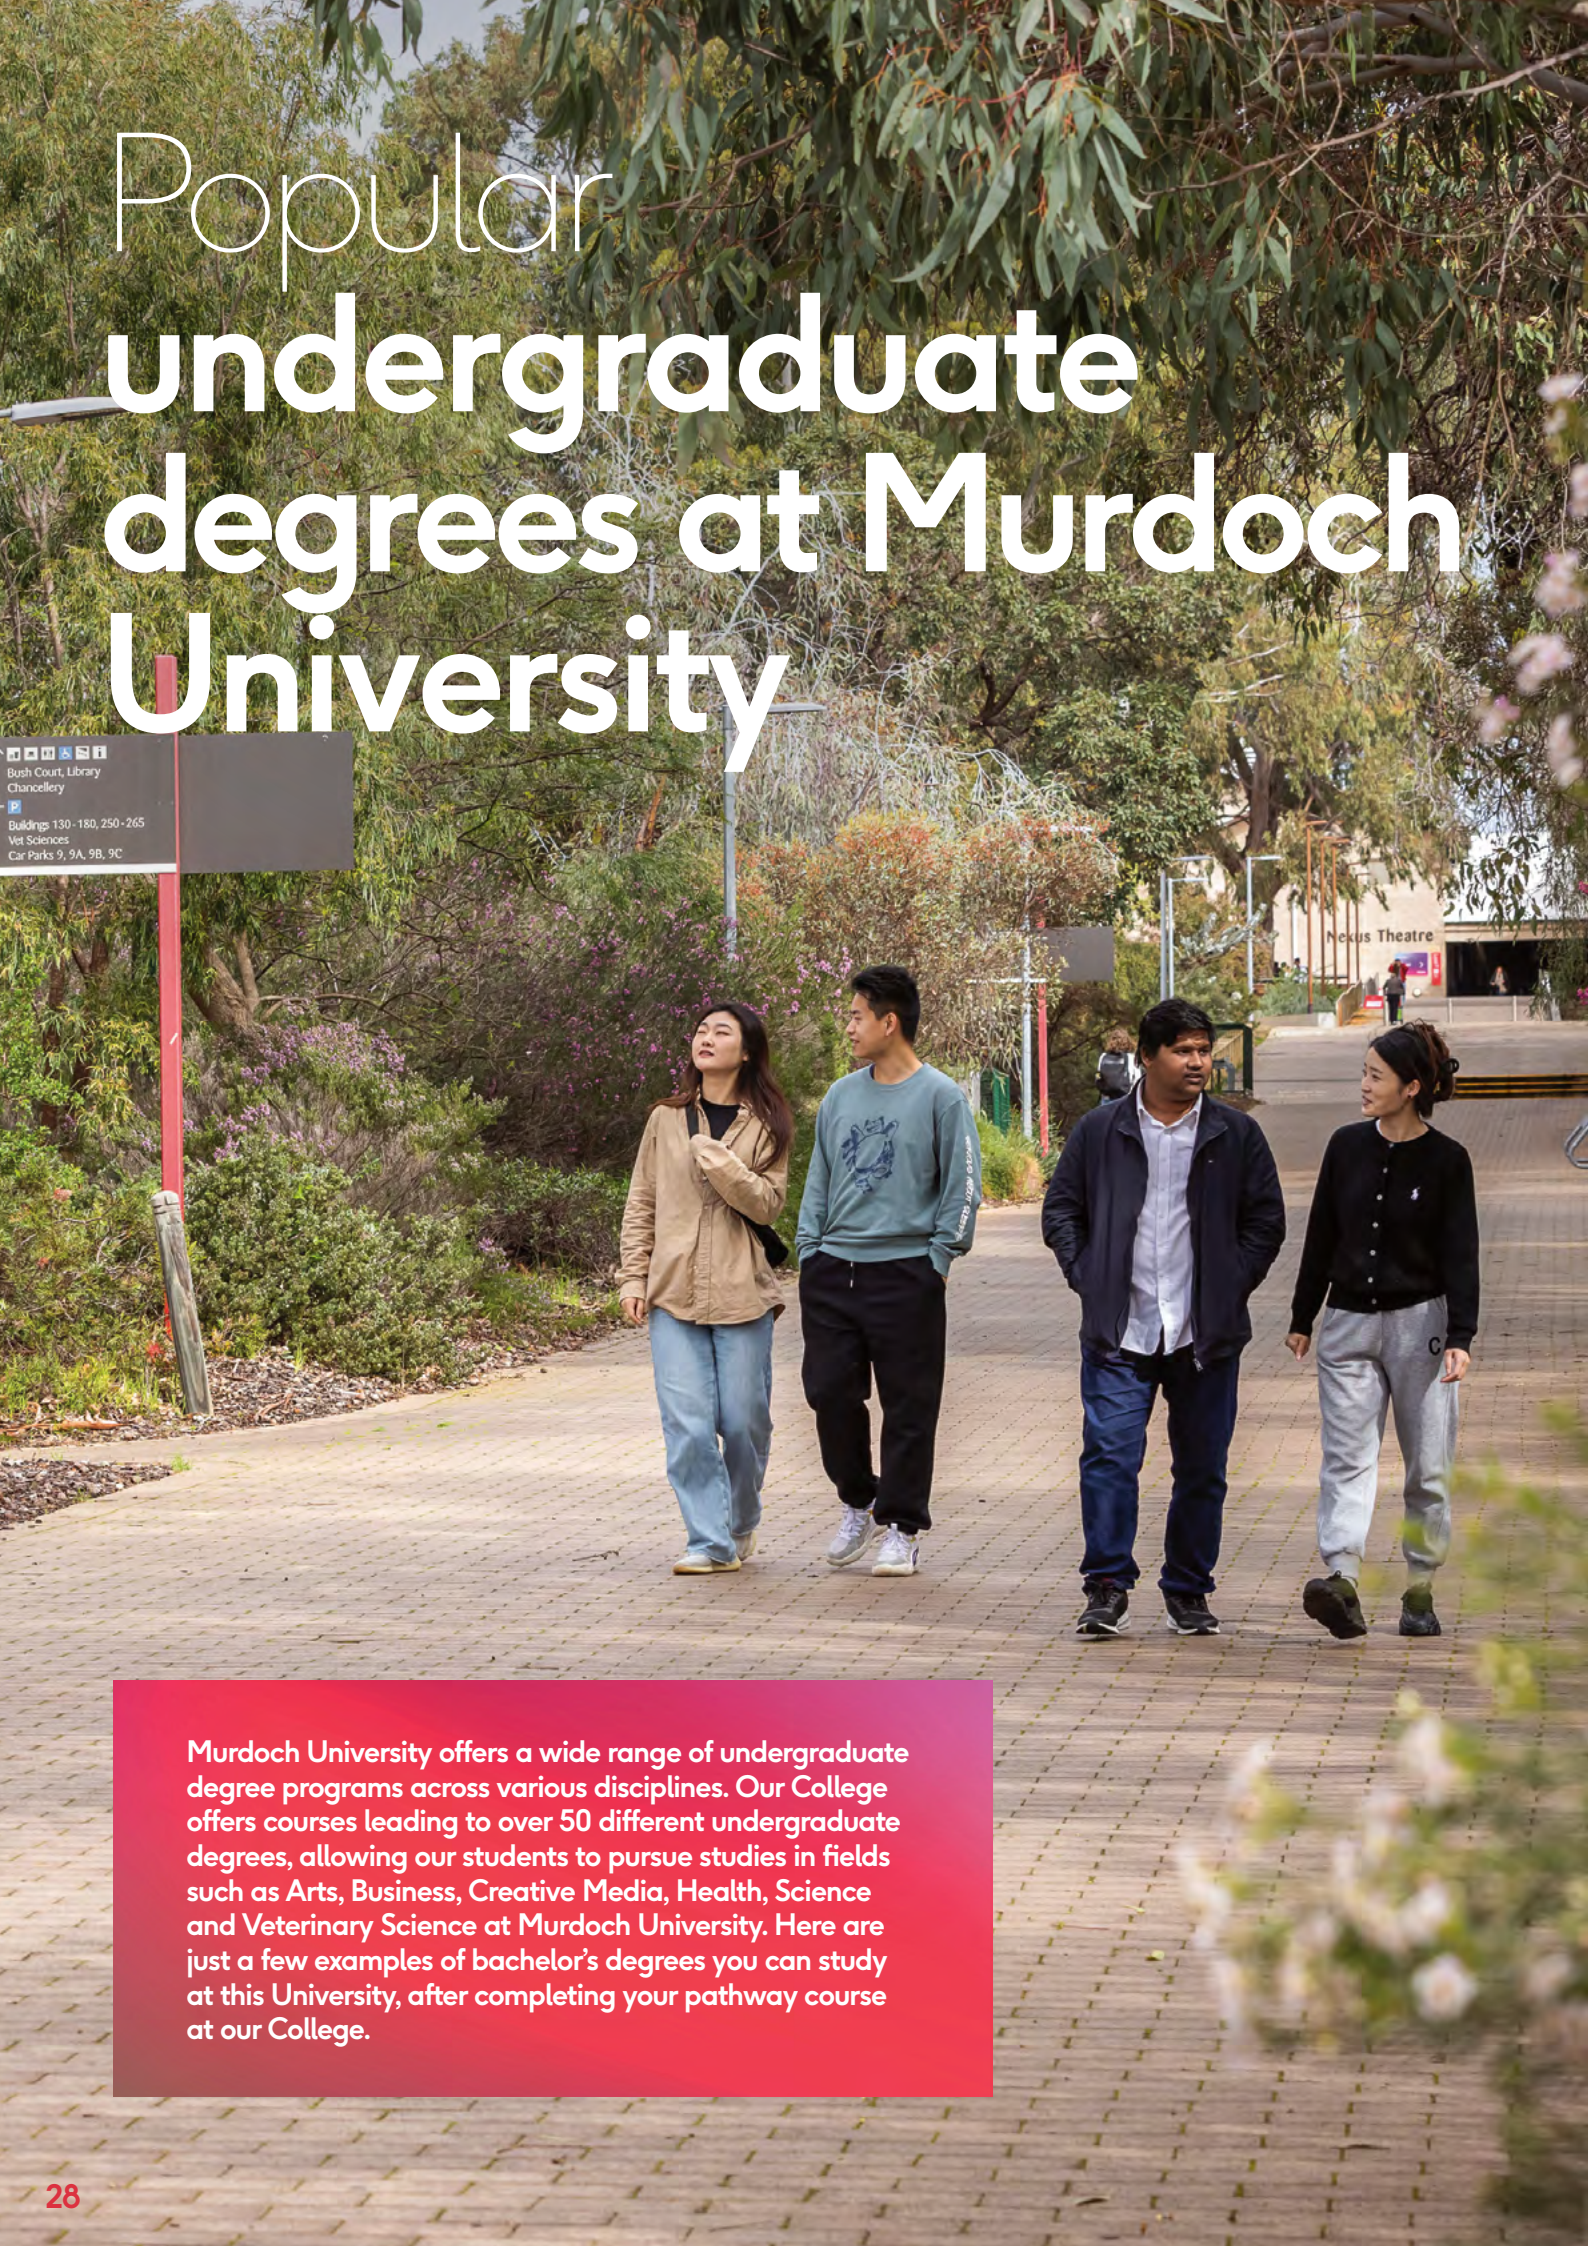

When you graduate you will be prepared for a career in animal health related fields, with animals of all species and sizes. You could work in primary care or emergency hospitals, in small animal practice, in large animal or mixed practice, or as a government veterinarian. Careers could include:

- Veterinary Clinician in private practice or academia
- Industry Consultant in agriculture, equestrian sport, animal welfare, animal behaviour
- Government Veterinarian, working on biosecurity, food security, herd disease and management
- Researcher in all aspects related to animal health and welfare, including animal models of disease

You could undertake specialist training in a wide range of clinical disciplines such as surgery, medicine, pathology, reproduction, or dermatology.

Popular undergraduate degrees at Murdoch University

Murdoch University offers a wide range of undergraduate degree programs across various disciplines. Our College offers courses leading to over 50 different undergraduate degrees, allowing our students to pursue studies in fields such as Arts, Business, Creative Media, Health, Science and Veterinary Science at Murdoch University. Here are just a few examples of bachelor's degrees you can study at this University, after completing your pathway course at our College.

Bachelor of Agricultural Science/ Bachelor of Business

TISC Code	Course Code	CRICOS Code	Duration	Selection Rank
MUBSC	B1393	103899F	4 years	70

Recommended ATAR Subjects
Biology, Chemistry, Mathematics Applications or Methods

If you want to...

1. Gain fundamental skills across science and business relating to the agricultural industry.
2. Study at Australia's only campus-based farm and gain hands-on experience in animal science and production together with crop science and pasture science.
3. Gain knowledge that will help you create innovative solutions for food, agriculture, communities and the environment.

As an Agricultural Science and Business student you will...

- Be part of a unique program that combines management studies with agriculture.
- Combine a key agriculture major (Animal Science or Crop and Pasture Science) with fundamental business knowledge and a choice of a business major (Management, Marketing or International Business).
- Learn a broad range of skills and engage with industry and communities to prepare you for a career in the rapidly developing world of agribusiness.

You'll learn

Animal science and health, crop and pasture science, international business, management and agricultural economics.

Where it will take you

A wide range of opportunities are available in the commercial, agricultural and industrial sectors covering information technology, manufacturing, food production, export industries, and biosecurity and food safety. Your future career options could include:

- Agricultural Scientist
- Agricultural Economist or Analyst
- Farm Manager
- Agronomist
- Agricultural Business Analyst
- Agribusiness Advisor
- Agricultural Policy and Development

Bachelor of Science (Chiropractic Science)/Bachelor of Clinical Chiropractic

BACHELOR OF SCIENCE (CHIROPRACTIC SCIENCE)/ BACHELOR OF CLINICAL CHIROPRACTIC

TISC Code	Course Code	CRICOS Code	Duration	Selection Rank
MUSCP	B1331	083417K	5 years	70

Recommended ATAR Subjects
Biology, Chemistry, Human Biology, Mathematics Methods, Physics

If you want to...

1. Study the only fully-accredited Chiropractic course in Western Australia.
2. Develop the skills needed to manage and operate your own private practice.
3. Gain hands-on experience working in our purpose-built, on-campus Chiropractic and rehabilitation clinic where you'll treat members of the public.

As a Chiropractic Science and Clinical Chiropractic student you will...

- Learn how to evaluate the signs and symptoms of various disorders involving the musculoskeletal system and related pain syndromes.
- Develop well-rounded scientific and clinical skills, so you graduate ready to work.
- First complete a three-year Bachelor of Chiropractic Science, giving you the knowledge you need in human biological sciences and introducing you to Chiropractic skills and theory. You then progress to the two-year Bachelor of Clinical Chiropractic where you will learn the skills you need to practice as a primary contact healthcare professional.

You'll learn

Manual therapies for the spine and extremities, differential diagnosis, clinical anatomy, neurology and radiology, rehabilitation and physical therapy, pharmacology and applied nutrition.

Want to be recognised?

This program is accredited by the Council on Chiropractic Education Australasia (CCEA) and is listed as an approved program of study by the Chiropractic Board of Australia (CBA). On graduation you will be eligible for registration in Australia, New Zealand and many other parts of the world. Please refer to your chosen country's accrediting body for details, as requirements for registration may vary.

Where it will take you

You'll graduate with the qualifications you need to become a registered Chiropractor in Australia and be eligible for registration in many other countries. Your future career options could include:

- Registered Chiropractor in private practice
- Academic work in the tertiary education sector
- Consultant to government and non-governmental organisations, health policy panels and regulatory bodies
- Research career pathway

Photography

BACHELOR OF CREATIVE MEDIA

TISC Code	Course Code	CRICOS Code	Duration	Selection Rank
MUCPH	B1343	095510C	3 years	70

Recommended ATAR Subjects
N/A

If you want to...

1. Work with organisations on real projects and complete internships through our Work Integrated Learning program.
2. Showcase your creative work through local, national or even global competitions that put you in front of industry eyes.
3. Develop an entrepreneurial attitude, client consultation skills, critical thinking and the ability to adapt - so you can action your ideas.

As a Photography student you will...

- Gain both theoretical and practical skills in photography and digital imaging, so you learn to create powerful and effective images for a range of audiences and genres.
- Develop a thorough understanding of critical photographic design and theory, and the changing nature of the creative industries.

You'll learn

Photographic technique, professional workflow and post-production practices, lighting skills both on location and in the studio, visual literacy and documentary photography.

Want to be recognised?

Upon entering the industry you can apply to join various industry associations such as Image Makers Association Australia (IMAA), Pro Photography WA, and the Australian Photographic Society (APS).

Where it will take you

You'll be well suited to careers in a range of industries and fields such as advertising and marketing, fashion, media and communications, and more. Your future career options could include:

- Photojournalist
- Content Producer
- Commercial Photographer
- Event Photographer
- Creative Director
- Professional Artist

Bachelor of Food Science and Nutrition

BACHELOR OF FOOD SCIENCE AND NUTRITION

TISC Code	Course Code	CRICOS Code	Duration	Selection Rank
MUFSN	B1389	0101649	3 years	70

Recommended ATAR Subjects
Biology, Chemistry, Mathematics Applications

If you want to...

1. Learn about the role of food and nutrition in human performance, health and wellbeing, and illness prevention.
2. Prepare for a career relating to the promotion of health at individual and community levels.
3. Build your skills in human nutrition, evidence-based food and nutrition practice, food science and food product development.

As a Food Science and Nutrition student you will...

- Study in the heart of the Murdoch Health Precinct, which includes public and private hospitals, and the Australian National Phenome Centre.
- Take advantage of our living labs to grow your food production research knowledge, including at our Whitby Falls farm.
- Grow your industry connections as you interact with researchers and scientists, with strong industry links, from Murdoch's world-class research centres.
- Study subjects including chemistry, biochemistry, human physiology, principles of nutrition, nutrition and disease, food science and food product development.

You'll learn

The role of food and nutrition in human health and illness prevention, food composition knowledge and cooking/culinary skills, novel food product design, the role of food and nutrition in sport performance and cognitive performance, and an understanding of food and its impacts on the human microbiome.

Where it will take you

When you graduate from this course you are likely to find work in a health field, in the food sector or a human nutrition science field. Your future career options could include:

- Nutritionist or Public Health Nutritionist
- Food Scientist or Technologist
- Product Manager
- Food Safety Officer
- Food Marketing and Food Media
- Manager in educational health and wellbeing and community programs

Bachelor of Psychology

BACHELOR OF PSYCHOLOGY

TISC Code	Course Code	CRICOS Code	Duration	Selection Rank
MUPSY	B1413	115634K	3 years	70

Recommended ATAR Subjects
N/A

If you want to...

1. Take your first step towards becoming a registered psychologist.
2. Discover the many facets of psychology, emerging trends, and investigation methods to uncover new knowledge about the human mind.
3. See first-hand how research studies are conducted in your first-year units, and receive course credit for participation in ongoing research.

As a Psychology student you will...

- Choose from our Bachelor Psychology or one of our popular combined degrees.
- Learn about all the major fields in psychology, including human cognition and development, abilities and disabilities, psychological disorders, cognitive neuroscience, and biological, social and cultural influences on behaviour.
- Explore leading-edge research and practical applications to understand how we make sense of ourselves.

You'll learn

The Bachelor of Psychology will give you an in-depth understanding of human behaviour and how it is influenced by societal, cultural and biological factors. Through your degree, you'll learn about of psychological wellbeing and the impacts psychologists can have, including how psychological disorders are treated. You'll learn how humans develop across the lifespan, and how memory, planning and decision making works. You'll explore how individuals differ in their personalities and talents. And more!

Want to be recognised?

apac accredited.

The Bachelor of Psychology, and combined degrees are all accredited by the Australian Psychology Accreditation Council (APAC).

Where it will take you

A Bachelor of Psychology will give you an in-depth understanding of human behaviour, beneficial across many industries. Your future career options may include:

- Psychologist (with further study)
- Human Resources
- Public Policy Development
- Juvenile Justice
- And more!

Bachelor of Laboratory Medicine

BACHELOR OF LABORATORY MEDICINE

TISC Code	Course Code	CRICOS Code	Duration	Selection Rank
MUSLA	B1374	0101823	4 years	70

Recommended ATAR Subjects
Biology or Human Biology, Chemistry, Mathematics Applications

If you want to...

1. Develop skills in the handling of patient material, laboratory testing and analysing clinical results.
2. Study in a major health precinct including three hospitals and a medical research institute.
3. Learn on the latest instrumentation as part of our extensive hands-on practical training, including industry placements within diagnostic pathology laboratories.

As a Laboratory Medicine student you will...

- Complete a four-year degree including Work Integrated Learning in diagnostic pathology laboratories.
- Learn from academics with an open-door policy, so you can get the help and advice you need to succeed.
- Learn by doing, with laboratory content throughout the course to ensure you acquire practical skills and reinforce theoretical principles.

You'll learn

Clinical microbiology, clinical biochemistry, clinical haematology, clinical immunology, histopathology, pathological basis of disease, and diagnostic genomics.

Want to be recognised?

This course is accredited by the Australian Institute of Medical and Clinical Scientists (AIMS).

Where it will take you

Pursue a range of roles in public or private diagnostic pathology, research or working in laboratories as a technician. You could also explore the fields of medical and life science research, marketing, media and academia, or take on further studies in medicine, pharmacy, dentistry and veterinary science. Your future career options could include:

- Medical Scientist
- Technical Officer
- Laboratory Technician
- Research Scientist
- Medical Representative

Diploma of **Business**

Why Study a Diploma of Business

This Diploma provides a pathway to your further business career. Upon successful completion of the Diploma of Business, you will progress into the second year of a Bachelor of Business degree at Murdoch University.

Our Diploma of Business is an 8-unit course taught over two or three trimesters. It has been designed as a pathway to a Bachelor of Business (079326C) for domestic and international students. It will equip you with an AQF Level 5 qualification, which helps you launch a career in a variety of business areas with confidence, or improve your employability for career advancement opportunities.

You will need to complete 5 core and 3 elective units in this course. You can start the diploma course in any trimester during the year. This diploma course is delivered full-time for international students, and a part-time option is available for domestic students.

Upon successful completion of the Diploma of Business, you will receive 24 credit points and progress into the second year of a Bachelor of Business degree (079326C) at Murdoch University.

This course is suited to you if you:

- don't have the desired results to gain entry to your chosen Bachelor of Business degree
- launch a career in a variety of business areas with a nationally recognised qualification
- improve your employability to advance your career.

What will you learn?

This course will improve your employability and help you develop the following skills which are sought after by employers:

- Interpersonal & people skills
- Communication & teamwork skills
- Organisation & planning skills
- Adaptability & resilience
- Reliability & motivation
- Critical thinking & problem solving
- Digital literacy

Quick Facts

Why Study a Postgraduate Qualifying Program?

Our Postgraduate Qualifying Program is a pathway to a master's degree for international students who don't meet the entry requirements.

What will you learn?

You will need to complete five units in the Postgraduate Qualifying Program (PQP). These five units are designed to develop your learning techniques, bridge gaps in your unit knowledge, and prepare you for your master's studies at the University.

- PQP001 Academic English
- PQP002 Study and Research Skills
- PQP003 Critical Thinking Skills
- PQP004 Quantitative Studies
- PQP005 Intercultural Studies

To progress to your desired master's degree at the Murdoch University, you will also need to meet the following requirements:

- Successful completion of this program with a minimum exit grade of 65% (Credit Pass) for PQP002 Study and Research Skills and PQP001 Academic English.
- Successful completion of this program with a 50% (Pass) or higher grade in the remaining subjects.

Where could it take you?

After successful completion of this program, you will progress into one of the following Master's degrees in Murdoch University.

- M1279 - Master of Business Administration (Global) (096880B)
- M1274 - Master of Professional Accounting (Advanced) (057228J)
- M1220 - Master of Information Technology (057275B)
- M1289 - Master of Business Administration/Master of Information Technology (099394C)
- M1314 - Master of Criminology (103447A)
- M1214 - Master of Sustainable Development (072141B)
- M1212 - Master of Community Development (081029E)
- M1195 - Master of Development Studies (077165J)
- M1268 - Master of Renewable and Sustainable Energy (094590F).*

General English

Delivered by highly qualified and experienced English language teachers in a small-class setting, our **General English** course is designed to improve your core skills in reading, writing, listening and speaking. Students will graduate with the ability to communicate in English with confidence in everyday situations and feel prepared to take on further academic study in Australia.

English for Academic Purposes

Our English for Academic Purposes course will provide you with an IELTS-free pathway if you meet the academic, but not English language requirements for entry into Murdoch University and Murdoch College. It focuses on the various reading, listening, study skills and strategies necessary for success in academic contexts.

It will also help to develop your vocabulary and grammar, particularly key academic skills of discussion and presentation. Murdoch College offers a flexible teaching structure that is tailored to your future study choices. If you plan to study Foundation Studies, Murdoch University and Murdoch College Preparation Course, Diploma or Postgraduate Qualifying Program, then you'll complete our English for Academic Purposes 1 (EAP1) course, with an entry of IELTS 5.0 overall. If you are preparing to enter university directly, you'll complete English for Academic Purposes 2 (EAP2), with an entry of IELTS 5.5 overall.

Here are some of the skills you can expect to develop across these four key areas:

- Speaking — Giving presentations, participating in seminars and tutorials, working in groups.
- Listening — Listening to lectures, note-taking techniques, listening skills practice.
- Reading — Strategies such as skimming and scanning, understanding assignment questions, coping with extended reading.
- Writing — Learning to construct paragraphs, essays, reports and summaries, analyses of numerical data and case studies, research and referencing techniques.

How to Apply

You can apply to study at Murdoch College through one of our authorised agents or by applying directly. Follow these simple steps to secure your place with us.

1 Step

Download and complete the Application Form at murdochcollege.edu.au/how_to_apply.html.

2 Step

Please provide certified copies of the following documents to support your application:

- Academic qualifications
- English proficiency document
- Passport.

3 Step

Submit your application

If you are a student who applies directly, email your completed application form and certified documents to admissions@murdochcollege.edu.au. If you are applying through an agent, please provide your completed application form and certified documents to your agent who will submit your application on your behalf.

If you are one of our authorised agents, please ensure that you are using the Kaplink Agent Portal to lodge and manage applications. You can seek support from our System Support Officer (kaplinksupport.agents@ kaplan.com), if needed.

4 Step

Application assessment.

We will review your submitted application and supporting documents and notify you whether you have been accepted or not. If you are accepted, you will receive an Offer of Admission to study.

5 Step

Accept your offer.

To accept your offer, you will need to:

- Login to the Kaplink Applicant Portal at **kaplink.kaplan.edu.au**
- **Submit any required documents** to meet conditions outlined in your offer (if applicable)
- **Review** carefully your **Offer of Admission,** including **Terms and Conditions**

Accept the Offer in Kaplink portal and complete the payment After we have received your payment, we will issue your Confirmation of Enrolment/eCoEs.

6 Step

Visa and Accommodation.

International students will need to apply for a student visa to study in Australia. After receiving your eCoEs, please apply for your Australian student visa as early as possible. You will also receive a College Welcome Guide with tips for living in Perth and finding accommodation.

7 Step

Pre-Arrival and Orientation.

At least four weeks before the start of your program, you will receive detailed information about pre-arrival preparation and orientation.

Scholarships

Murdoch College is proud to offer our students from around the world a range of scholarships in 2025. Students who successfully complete certain courses with Murdoch College will be eligible for a Welcome Back International Scholarship for the duration of their university course.

To find out more about scholarships and your eligibility, please email us at **info@murdochcollege.edu.au** or visit our website **murdochcollege.edu.au/scholarships.html**
