## Founder's Welcome

For over 30 years, EQUALS has been providing quality and meaningful education and development opportunities to people from all walks of life.

Since our inception in 1991, our vision to develop the latent potentialities of individuals and organisations has seen us expand in Australia and various parts of the world delivering both accredited and non-accredited courses addressing the mental, physical, spiritual and emotional aspects of life.

EQUALS is committed to addressing the skills required for a sustainable future in a rapidly changing world. Our focus is on empowering and encouraging individuals and organisations to make a positive difference in their own work environment thereby creating meaningful and sustainable outcomes.

We advocate a new paradigm of work through our spiritual principles: ethical business practices, promotion of partnerships between women and men in all fields of endeavour, advocate and participate in corporate social responsibility and promote values-based leadership. Our bedrock is non-adversarial decision making through consultation.

We welcome you to have an EQUALS experience.

With warm greetings,  
Katina Jones

## Beach and swimming safety

Adelaide summers can be very hot, and many students love to cool off at Adelaide's beautiful white sand swimming beaches. It's important to take care when choosing where and how long to swim.

There are dangers that you need to be aware of, because not everyone returns safely from the beach unless they've careful to consider the following potential dangers:

- Prepare before you go: check out the weather and the time and pick the right spot for your safety
- Can I swim and how well? Do I need some swimming lessons before I swim at the beach?
- How strong and big are the waves and local currents or rips?
- Are there other people swimming?
- Is it safe to swim here? What do the signs say?
- Is there a patrolled, flagged safe zone to swim in with lifesavers? The red and yellow flags show the safe patrolled space to swim.
- Should I just walk or sit in the very shallow water to cool off?
- Ask the locals about dangers and where to swim safely
- Protect yourself from the sun, which causes more damage than sharks or drowning
- Never swim alone.

EQUALS undertakes collaborative initiatives with Unley Swimming Centre and Royal Life Saving SA to provide funded Swim to Survive classes for our international students. Check EQUALS noticeboards, emails and EQOnline for the next series of scheduled classes.

environment.

  - not included in the packaging rules for our nationally recognised qualifications
  - not compulsory and not assessed for you to achieve a qualification
  - delivered as they align to EQUALS' values of equality, diversity and unity, and may offer additional skills, knowledge and attitudes that improve employability and resilience in the workplace
  - meaningfully designed to reflect industry feedback and support your personal growth throughout your learning journey
  - offered in areas including
    - problem solving and consultation skills
    - spiritual intelligence
    - healthy lifestyles
    - employability skills
    - human rights.

## Ongoing learning

EQUALS has a long history of successful students, and provides ongoing professional development for its graduates, through seminars, workshops and lectures.

## Full Time Studies

Under the Australian immigration law, international students are required to study full time. For the purposes of EQUALS' students, "full time" normally means enrolment in 4 units per trimester, i.e., total of 8 units per year for standard full time, or 12 units per year for accelerated full time study mode.

Only in exceptional circumstances may international students be enrolled in less than 100% of a normal full-time load. This must be approved in advance by the Academic Director.

"Exceptional circumstances" include:

- You are in your final trimester of an award and completing remaining units;
- You have negotiated an approved block placement during a study break period in place of normal timetabled attendance, in writing, which may affect usual timetabled attendance requirements.

## Courses conducted in English

Language is a beautiful and important part of our diverse background culture and identity. To maintain unity and shared understanding between students and staff at EQUALS, and to improve your English-speaking skills, we require that English is the only language spoken on campus. In addition, all courses are conducted in English.

## How Units Are Taught

Units are taught through a range of methods including: Lectures, seminars, tutorials, studio and laboratory sessions, group discussions and projects, individual research projects, class presentations, role plays, interviews, work samples, case studies and industry-based projects.

## Assessment Methods

EQUALS utilises a range of assessment methods to measure your learning and application. The practice of assessment, or gathering of evidence, can be in various modes and discourse, depending upon the learning outcomes of the course and what needs to be achieved. Assessment can be diagnostic, work-integrated, formative and summative, as well as formal or informal.

EQUALS regards assessment as central to your learning experience. The way we assess your learning will have a direct bearing on what and how you learn. The purpose of assessment is to provide feedback to you on how you can accomplish the unit objectives, as well as to indicate your level of achievement.

## Study Workload

As a guideline for your workload during the trimester we recommend that for each 4-hour unit class time you undertake approximately:

- A minimum six hours per week of independent study for each unit
- 20-30 hours for assessment preparation.

## Assessment and Extensions

You are required to submit assessment items at the time and date specified in your unit outline or as specified or agreed by your unit educator. If you need an extension for submission of an assessment item, fill in the electronic [extension request form](#) together with the legitimate reason as per the categories provided in the drop down menu for the request. This must be submitted prior to the submission due date. The extension may be granted at the sole discretion of EQUALS. Please refer to our [Student Assessment Policy and Procedure](#) for details.

## Penalties

Where no extension has been granted and the assessment item is received by EQUALS after the due date a penalty is applied as per [Student Assessment Policy and Procedure](#).

## Keeping your Completed Assessments

EQUALS will securely retain completed assessment items until the end of the appeal period or three (3) months after actioning. However, you are expected to keep a copy of your assessment as per your declaration in the [Assessment Cover Sheet](#). Please refer to the [Grievance Handling Policy and Procedure](#) for more information.

## Supplementary Assessment and Reassessment

Where a student has completed all assessment tasks and marginally fails a unit (i.e., has achieved a score of 46-49%) the Course Coordinator may recommend that the student be offered the option of completing additional assessable work which, if completed at the prescribed standard, will result in the student passing the unit. The grade awarded after the additional assessment is finalised is limited to P or FO. If the student does not take up the opportunity to complete additional assessment work the grade remains as FO.

## Academic Progress and Support

As a student at EQUALS, you are also expected to meet EQUALS' minimum standards of behaviour, academic performance and visa conditions (for students enrolled in Higher Education courses) and attendance (if enrolled in an ELICOS course).

### Attendance

You are expected to attend all timetabled sessions. This means arriving at classes or appointments on or before the starting time and being present throughout the duration of the class or appointment and meeting the meeting the course progression requirements as set in our [Student Academic Progression Policy and Procedure](#).

Please read the [Student Attendance Fact Sheet](#) provided by the Commonwealth Ombudsman online for more details.

If you are enrolled in an ELICOS course, the minimum

requirement for attendance is 80 per cent of the scheduled contact hours for the course.

If you are unable to attend classes for a period of time, you must provide a written explanation with supporting documentation to the Student Service team for compassionate or compelling circumstances (e.g., illness where a medical certificate states that the student was unable to attend classes).

### Academic Standing

In order to be deemed to be in good academic standing, you must complete successfully more than 50% of the credit points in which you are enrolled. In addition, you must maintain a cumulative career Grade Point Average (GPA) of at least 3.5.

If you're at risk of not meeting academic progression requirements, EQUALS provide early intervention and support. If, after multiple interventions and the provision of sufficient student support, your academic performance is still deemed unsatisfactory, then EQUALS reserves the right to notify you of our intention to report you to the Department of Home Affairs and possible exclusion from your course. You have the right to appeal if the process has not been followed, consistent with the [Grievance Handling Policy and Procedure](#).

Learn more about the [Student Assessment Policy and Procedure](#) and the [Student Academic Progression Policy and Procedure](#). These policies are also available on EQUALS' website.

EQUALS identify students who require early intervention and support by:

- monitoring student performance
- identifying students who are at risk of not meeting progression requirements
- formally advising such students of their academic risk of not meeting progression requirements
- providing intervention strategies to assist students to resolve progression difficulties and
- working with students to formulate an intervention plan.

## Consequences of Unsatisfactory Academic Performance

Unsatisfactory academic performance means:

1. Failing 50% or more of the credit points in which you're enrolled in a trimester;
2. Failing a unit more than once or
3. Not being able to complete your course within the maximum period of study in accordance with EQUALS' [Student Academic Progression Policy and Procedure](#).

Unsatisfactory academic performance can result in counselling, conditional enrolment or even exclusion from the course.

## Professional Practice Placements

Please be aware that Professional Practice Placements (PPP) timetabled in your second and third year of study are a compulsory component of your course.

Your timetable preserves at least two days per week for the insertion of your practice placement (Prac) study load. Placement days will vary dependent on placement providers' availability.

Each PRAC A and B are equivalent to a full-time unit of study of 10 credit points across 12 weeks and are timetabled together making them a double unit together in one study period or 20 credit points.

This enables flexibility for negotiating actual Prac hours with the Placement Provider. EQUALS endeavours to arrange required placement hours to fit both your host and your own preferences as best as practicable.

What EQUALS does for you:

- The Placement Coordinator (contact details) consults with you regarding your professional interests and placement availability
- Books and confirms the placement with both parties and advises the CC and placement supervisor
- Advises checks and clearances required, contact details and exact costs (list here with indicative costs)
- Orders your TShirt uniform in the correct size

What you need to do:

- Make an appointment with the Placement Coordinator (contact details)
- Sign placement agreement
- Obtain advised checks and clearances,
- Order and pay for TShirt uniform
- Open provided link to the PPP Manual and familiarise yourself with it ready for the first tutorial
- Professional Practice Placement provides you with opportunities to apply academic learning to a practical setting where you can begin to develop as professional practitioners: you learn to work within the professional framework of [ACWA ethics and values](#); you also learn how to manage yourselves in the workplace as team members and colleagues.
- This table gives a summary of placement information. It is to be used as a guide only — please note that it is essential to familiarise yourself with the entire manual before starting the placement process.

## Placement requirements

### Academic

Students must pass the prerequisite units before beginning placement.

### Three professional practice placement units

In order to receive the award of a Bachelor of Human Services degree, students must complete the following units and are directed to the respective Study Guides for unit specific information:

*PRAC100: Professional Practice Placement Introductory*

*PRAC200: Professional Practice Placement Intermediate*

*PRAC300: Professional Practice Placement Advanced*

### Other requirements

Students wishing to enrol in PRAC200 or 300 must attend the pre-placement information session held in PRAC100 the study period before placement begins. This will be the only compulsory pre-placement workshop as this session will function as orientation to EQUALS placement requirements overall.

### Placement duration

In fulfilment of placement requirements, students complete a total of approximately 496-508 hours which consists of the following:

PRAC100	96-100 hours	8 hours per week
PRAC200	200-204 hours	16 hours per week
PRAC300	200-204 hours	16 hours per week

Hours must be completed during the Placement Provider's normal working hours provided and to a maximum of 8 hours per day. Any hours worked over this should be taken as time in lieu during the placement period according to the Placement Providers' policies.

### Placement timing

Placements are offered in the allocated trimesters as per the course diagram. Placements have to be completed within one teaching period. Small variations including extensions may be approved by the Professional Practice Placement Coordinator.

### Placement setting

The following are essential requirements:

- Two of the three placements must be in different fields of practice.
- Two of the three placements should be in different organisations.
- At least two of the three placements must involve face-to-face, direct service delivery.

As a general rule, Placement Providers do not accept students who have been former service users and do not accept students who have relatives or partners working in the same office or in senior positions in the Placement Provider.

### Professional Practice Placement Providers

EQUALS maintains a range of professional relationships with Placement Providers across the sectors including disability, health, ageing, early childhood education and youth.

### Screening checks

EQUALS requires higher education students to undergo a screening check for five types of screening prior to commencement of placement. These types of screening are: child related employment, disability services employment, aged care sector employment, vulnerable person employment and general employment probity.

Students are required to have a current Screening Check clearance letter prior to the commencement of the Professional Practice Placement. It is the student's responsibility to ensure that the clearance letter remains current for the duration of the placement. The EQUALS Work Integrated Learning Team can assist the student with this application process.

Further information can be obtained from the [DCSI website](#)

*In addition to that, students are required to present a current National Police Check and successful completion of 'Through your Eyes' Child Safe Environment Training*

EQUALS insurance covers public liability and personal accidents whilst on placement, but personal property is not covered. Please consult the PPP Human Services Manual for full details.

Please visit the Placement Information hub on EQOnline for further placement related questions and documentation requirements.

## Using Assessment Rubrics

Assessment rubrics, usually in the form of a matrix guide, are provided for you to use and interpret your assessment tasks against. This helps you see what is important and where to focus your learning efforts. It enables you to understand the marking criteria and how different levels of performance earn different grades.

At EQUALS, teaching staff evaluate your performance against the expected performance standards in an assessment criterion found in our rubrics. The rubrics also help teaching staff apply consistent standards when assessing qualitative tasks and promotes consistency in shared marking.

## XI. Keys to Academic Success

Organisation is crucial and to successful study. By being organised, you'll ensure you've allowed yourself enough time to develop your learning skills and apply what you learn to achieve your goals.

The following are some tips:

- **Plan your study timetable** – prepare a study timetable allowing enough time for each enrolled unit over the study period (for every 4-contact hour unit, allow 6 hours study time per week).
- **Study at regular intervals** - Set yourself realistic goals for each study session. (Let the assessment task weightings guide your study time commitment.)
- **Read** - gain an understanding of each assessment task and identify key issues.
- **Write** - List the main concepts and ideas in point form under headings. Complete any assessment tasks or questions in your unit notes.
- **Recall** - List the main concepts and ideas in point form under headings.
- **Revise** - revise the notes you have made. Test yourself on the objectives of each unit by treating them as questions.

### Academic Integrity

EQUALS is committed to academic excellence and high standards of ethical behaviour as the cornerstones of individual and community achievement, and quality assurance.

As a student of EQUALS, you are required to act honestly, ethically and with integrity in your dealings with EQUALS, our teaching and professional staff, members of the public and others.

Academic integrity describes thoughts and actions in our academic assessment tasks and interactions which show respect and honesty towards other students and staff in our EQUALS community.

When we acknowledge all of our sources of information and ideas, we demonstrate a commitment to open and ethical conduct and our values of responsibility, courage, trust, fairness and respect in relation to our own work and the work of others.

We acknowledge our sources by following the [EQUALS Style Guide](#) when submitting assessments and writing academically.

A range of supports and guides are in place to help you develop the knowledge and skills to avoid plagiarism, cheating and collusion. Taking part in orientation activity from the start is the best way to understand, develop and practice your academic writing skills.

### Referencing

Referencing is an important skill in academic writing. It helps you support your academic work by demonstrating that you have read widely and have understand the content of your research. EQUALS recommends:

- APA 7 referencing
- Using [EQUALS' Style Guide](#)
  - To help you write academically with confidence
  - To help you understand how EQUALS expects students to present and submit assessment tasks and what academic writing is all about
  - To help you submit assessment tasks that are accurate, meaningful, authentic and demonstrate your learning.

EQUALS' policy on reusing work is an important topic included in [EQUALS' Style Guide](#). We call this self-plagiarism. This is when you reuse your own submitted work from previous classes or courses without appropriate citation. To avoid this:

- Cite yourself, just as you would acknowledge the work of others.
- Reuse previous work sparingly, and only use it only with good reason and permission. Then cite it using the EQUALS' Harvard format.

Please read more information and key links in our [EQOnline](#) for further information on referencing.

## XIII. Health, Safety and Wellbeing On Campus

EQUALS has various support structures and procedures in place to ensure your health, safety and wellbeing.

### General Hazards

Although unlikely, unexpected incidents may be experienced from time to time. EQUALS takes seriously any workplace hazards and emergencies, which may include:

- Electrical faults
- Medical Emergency
- Fire on Campus (Emergency Plan) and steps for evacuation
- Unwanted visitors; threats; unaccounted for mail or parcels/bags
- Building flooding or collapse which may require either evacuation or containment
- Sexual abuse or harassment
- Major or minor harassment of a physical kind
- Verbal abuse.

### First Aid Facilities and Services

Please contact Reception on Level one for first aid during normal office hours (Monday to Friday 9am to 5pm).

Outside of these hours, please call emergency services on '000' for immediate assistance and report the incident on the online portal as soon as practicable.

### Critical Incidents

Critical incidents are extraordinary events and may be classified as natural such as floods, bushfires, earthquakes, and storms or human-caused, through deliberate attack on the people or resources of EQUALS.

EQUALS' Critical Incident Management Policy is designed to complement other procedures that ensure a safe environment for students and staff, regular maintenance of buildings and facilities and evacuation procedures in case of emergency.

Written records of critical incidents are maintained for a period of not less than two years and are regularly reported to the Board of Directors.

### Medical Emergency on Campus

There are a number of trained Physical First Aid and Mental Health First Aid staff on campus – if you become ill or injured, please seek assistance by responding to the First Aid Officers.

If you see a student or person who requires first aid during normal office hours (Monday to Friday 9am to 5pm), please assist them by reporting the incident to Level 1 at Reception. They will contact the first

available First Aider.

If however, the incident occurs outside of these hours, please report the incident to Student Engagement team the following day.

### Smoke, alcohol and illicit drug free

EQUALS maintains a clean and smoke-free environment. This means that smoking is prohibited on all premises, including immediate pavements and areas surrounding the buildings. All forms of alcohol and illicit drugs are strictly prohibited on campus.

### Campus Evacuation Plans

In the event of an emergency requiring a campus evacuation, be mindful that:

- If you notice smoke or a fire – report it to the nearest staff member and follow instructions.
- If the alarm sounds, please wait for instructions from the fire wardens – the wardens wear either caps or hats and issue instructions on where to meet.
- Do not waste time looking for things to take with you. Leave when requested.
- The building is fitted with an automated electronic alarm system, so even if there are no wardens available, the building's public announcement system will advise you of what to do.
- Generally, there is a softer, slower sound initially, followed by a whooping siren, and finally, an announcement advising to evacuate the building.
- The announcement will either be made by the chief warden using the public announcement system (PA) or the automated system will kick in.
- The building has multiple fire exit stairs located towards the back of the building. These are stairs that you will need to use to reach the designated assembly area.
- Remain in this location until advised by the wardens or authorities that it is safe to leave.
- Should you need to leave before being advised to, do not leave without reporting to a warden. Leaving without advising could be putting someone's life in danger as the emergency crews may be sent back into the building to look for you.
- Once the emergency is declared over, you will be guided back into the building by the wardens and staff. Where possible – use the stairs to return to your activities.

### Appendix B: Adjusting to Life in Australia

While living and studying abroad may be an exciting adventure, it can also present a range of challenges. Having decided to study and live in Australia you will be undertaking adjustments in many areas of your life including cultural, social and academic.

Adjustment to a new country and culture is a process that occurs gradually and takes time. The values, beliefs, traditions and customs of your home country may vary greatly from those in Australia and adapting to the Australian way of life may take some time. This advice may help:

#### Listen, Observe and Ask Questions

- Adjustment to a new culture and way of life takes time.
- Allow yourself time to observe those around you and patterns of both verbal and non-verbal communication.
- Don't be afraid to ask questions if there are things you do not understand as this will reduce the chance of confusion or misunderstandings.

#### Become Involved

- Make an effort to meet people and become involved in groups both on campus and in the wider community.
- Maintain an attitude of openness to new situations and experiences.
- Establish friendships and join groups to experience and learn about Australian culture

#### Ask for Help

- Don't be afraid to ask for assistance or support if you need it.
- EQUALS Student Service team is located at Level 1 54 Currie Street and are here to help you with your transition to life and study in Australia, and eagerly welcome your enquiries.

### Australian Culture

#### Social Customs

- When meeting someone for the first time, it is usual to shake the person's right hand with your right hand.
  - It is polite not to talk about personal matters.
- Many Australians look at the eyes of the people they are talking with.
  - They consider this a sign of respect, and an indication that they are listening.
  - Do not stare at the person for a long time
- You can address a new acquaintance using their title and family name.
  - You may use their first name when they ask you to or use it in the introduction.
  - In the workplace and among friends, most Australians tend to be informal and call each other by their first names, including at EQUALS.

#### Polite Behaviour

- 'Please' and 'thank you' are words that are very helpful when dealing with other people and buying goods or services.
- Australians often say, 'Excuse me' to get a person's attention and 'sorry' if we bump into them. We also say, 'Excuse me' or 'pardon me' if we burp or belch in public or a person's home.
- You should always try to be on time for meetings and other visits.
  - If you realise you are going to be late, try to contact the person to let them know.
  - This is very important for visits to professionals as you may be charged money for being late or if you miss the appointment without notifying them before the appointment time.
- Most Australians blow their noses into a handkerchief or tissue, not onto the footpath.
  - This is also true for spitting.
  - Many people will also say, 'Bless you' when you sneeze.
    - It's used widely and may have no religious intent.
