Master of Business Administration (MBA):

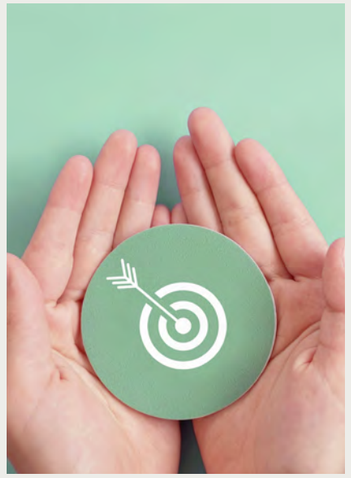

A course that talks business

The MBA at BBS is designed as a flexible and future-focused course that supports students at different stages of their professional journey. The structure of the MBA includes two nested qualifications, the Graduate Certificate in Business (GCB) and the Graduate Diploma of Business (GDB). These options allow students to begin their studies at a level that matches their experience and career goals, while still providing a clear pathway into the full MBA.
